GENERAL REMARKS

WE have much pleasure in presenting our THIRTY-NINTH CATALOGUE OF TREES, and avail ourselves of the opportunity to thank our Customers for the support accorded us during the last thirty-eight seasons, and shall do our best to merit a continuance of their favour and recommendation.

Locality.—The Nurseries are situated at Emerald. Railway Siding and Office are at the Nurseries, half a mile from Emerald Railway Station, on the Ferntree Gully and Gembrook line.

Stock.—The Nurseries contain over two and a half million trees in various stages, all perfectly clean, healthy, free from all insect pests, and in the best possible condition. The soil is particularly suitable for producing nice fibrous-rooted trees, thus ensuring a safer removal to other places.

The Nurseries are regularly examined each season previous to sending out trees, and a Clean Certificate can be had with each consignment if required.

Fumigation.—We have our own up-to-date Fumigating Chamber at the Packing Shed, and on request any consignment can be fumigated before despatch at a small cost.

All trees are most carefully packed for transmission to any part of the world, so as to ensure their arrival in good order.

Orders.—Orders will be booked at any time, and executed in May, June, or July. Every order is immediately executed on receipt of same, or acknowledged. If no reply be received within a few days, it may be assumed that the letter has miscarried.

Terms.—The prices quoted are for Cash within one month of receipt of invoice.

Charges are made up on the following basis:—

At the each rate up to 3 trees of a variety, irrespective of the total number ordered.

At the dozen rate from 6 plants.

At the 100 rate from 50 plants.

At the 1,000 rate from 500 plants.

Unknown Correspondents are kindly requested to remit with their orders, or to name a Melbourne reference.

Ordinary payments may be made by Crossed Cheque, Bank Draft or Post Office Order, the latter payable at Melbourne, and for amounts under Ten Shillings, Postal Notes or Stamps should be remitted.

It is also very desirable that **Small Orders** should be accompanied by a **Remittance** as the extra postage incurred in rendering accounts and acknowledging small amounts is a serious and unnecessary charge.

C. A. NOBELIUS & SONS PTY. LTL.

GEMBROOK NURSERIES,

EMERALD, *1st March, 1930.*

CATALOGUE

ALMONDS

1/6 each; 15/- per doz.; £5 per 100.

Brandes Jordan—A well-known variety of strong growth, very tender shell.

Burbank—A variety from Luther Burbank; tree extremely hard, and a great bearer; recommended as one of the best for this climate, and flowers much later than other sorts.

Early Jordan—An early variety of the "Paper Shell."

Grosse Tendre—A new almond, very large, thin-shelled, good grower and heavy bearer.

Hatch's Nonpareil—A very fine almond, large kernel, and very thin shell. The shell of this almond is the thinnest we know of, thus losing very little weight after being shelled.

I.X.L.—A very good variety from California; large nuts, perfect shell.

Ne Plus Ultra—Tree a rapid grower, leaves rather large, extremely prolific, producing its nuts in bunches all over the twigs; nuts large and long; fine flavour.

Paper Shell—Very good, easily broken between the fingers.

Peerless—This almond was raised by Mr. H. Wicks, Riverside Nursery, Payneham, S.A. It is without any doubt the prettiest dessert almond, being very smooth and well shaped, large and of fine flavour; shell easily broken between the fingers.

White Nonpareil—Raised and distributed by Mr. Charles Pitt. The tree is a strong grower, of spreading habit; nuts very large, with white shell; a far heavier bearer than "Brandes Jordan."

C. A. NOBELIUS & SONS PTY. LTD.

APPLES (GENERAL COLLECTION)

All on Blight-proof Stocks, and perfectly clean.

1/6 each; 15/- per doz.; £5 per 100.

Alfriston—A large cooking apple, and splendid keeper; late.

Ballarat Seedling—A first-class culinary apple, large, green and yellow; with red cheek; late.

Beauty of Bath—A valuable addition to our extra early dessert apples. Fruit medium size, round, a little flattened; skin yellowish green, beautifully striped and spotted with crimson in the sun, flesh slightly yellowish, with a brisk, rich spicy flavour; a superior early apple, good bearer.

Ben Davis—Excellent market variety, dessert; late.

Black Ben Davis—Seedling from "Ben Davis," introduced from United States, America. It is a decided improvement, more beautiful, solid red colour, better quality, better keeper, surer cropper, and should need no further recommendation; late.

Blenheim Orange—A large culinary and dessert apple; late.

Buncombe—A beautiful dessert apple of good quality; late.

Cleopatra—A splendid apple in some districts; late.

Cole—A strong grower, first class keeper. Blight-proof.

Commerce—A new American apple of great beauty, with two shades of red, and a heavy blue bloom; of large size, nearly round, very solid and perfect in every way; it is a great bearer; late.

Cox's Orange Pippin—Grand dessert, flavour excellent; late.

Crofton Pearmain—A medium-sized, highly-coloured apple, of good keeping quality; a favourite in some districts in Tasmania.

Delicious—A most beautiful and delicious apple from Iowa. Tree a strong grower, hardy and most prolific bearer, fine colour, like "Jonathan," and most exquisite flavour. One of the best late-keeping apples.

Democrat—A seedling apple raised in Tasmania; it is of good shape, highly coloured, and a good keeper. A first-class late apple.

Devonshire Quarrenden—A highly-coloured apple; early.

Dougherty—Medium size, almost covered with bright red; a very fine dessert apple, good bearer; late.

GEMBROOK NURSERIES, EMERALD

APPLES (CONTINUED)

Emperor Alexander—An excellent large culinary apple, and a good market variety; early.

Esopus Spitzenberg—A most beautiful apple, richly flavoured; late. clean; medium.

Foster—This apple has a fine flavour. Coming into use in February, it will fill up a gap in the market between the very early apples and "Jonathan," when good dessert apples are scarce. Blight-proof.

General Carrington—Tree of strong, vigorous, upright habit and perfectly blight-proof. Fruit large and handsome; skin yellow, beautifully striped crimson; flesh yellowish white, rich, crisp, juicy, and sugary, of delicious flavour; late. clean; medium.

Glengyle Red—It has all the qualities of Rome Beauty, is firmer, and instead of being striped red is of a deep red colour over three-quarters of the fruit; in that respect resembling Rokewood. I have seen the apple, and believe it will be in great demand when it becomes known.

Golden Reinette—This is the best of all the export apples, being very pretty, keeps well, of first-class flavour, and a heavy bearer; being subject to the woolly aphid, the tree requires to be kept clean; medium.

Golden Spire—This is one of the finest early cooking apples, in use from middle of December to March; an early and regular bearer.

Granny Smith—Large and juicy, of a greenish yellow colour; well known and much esteemed in New South Wales; late.

Gravenstein—A splendid apple, good flavour and colour; early.

Gravenstein Rouge—Fruit medium, conical, yellow and red. Flesh rich and juicy; a great bearer; early.

Hoover—A beautifully-coloured apple, keeps well; late.

Irish Peach—Good bearer, and does not blight; early.

Jonathan—A most beautiful fruit for all purposes; medium.

King David—"King David" is a rich, dark red apple with yellowish flesh; flavour good, juicy and rich; indeed, the quality is of the very best; was awarded the premium by the Illinois State Horticultural Society for the best new apple. This apple has now fruited, and is fully up to expectation.

C. A. NOBELIUS & SONS PTY. LTD.

APPLES (CONTINUED)

Lady Carrington—Beautiful bright red, very prolific, and said to be blight-proof; early.

Liveland Raspberry—Earliest of all choice eating apples, quality very best, good grower and productive, similar to Duchess d'Oldenburg, but hardier, and in every way a better tree and fruit; blight-proof.

London Pippin—One of the very best apples for all purposes; late.

Lord Nelson—A large culinary apple; medium.

Lord Suffield—A splendid cooking apple, heavy bearer; early.

Lord Wolesley—Heavy bearer, good cooking and dessert; late.

Loy—A variety from California, where it is held in the highest esteem; it is one of the largest and showiest of apples in cultivation, rivalling that well-known variety, "Gloria Mundi"; ripens in April, and keeps for a long time; rich, firm, and juicy, and of a most agreeable flavour; a valuable late-keeping dessert and culinary apple.

Marjorie Hay—Raised by H. E. Sharp; a very early blight-proof seedling, raised from "Irish Peach," large size, conical in shape; skin clear yellow, striped and mottled with lively red, brighter on the sunny side; flesh white, tender, and crisp, with a rich agreeable, juicy and aromatic flavour; an early dessert apple of the finest quality.

McIntosh Red—Fruit medium or above, roundish, oblate, regular; skin whitish yellow, very nearly covered with dark rich red or crimson, of excellent quality for Home and market use, regular bearer and good keeper; late.

Mona Hay—Raised by H. E. Sharp; a blight-proof seedling from "Irish Peach"; tree is very vigorous, and perfectly blight-proof; a regular and most profuse bearer, fruit is of above medium size, oblate, flattened in shape; skin smooth, yellow, beautifully striped with crimson and covered with crimson where exposed to the sun; in season February and March; flesh white, tender, crisp, sugary, and juicy, with a delicious flavour.

Munro's Favourite—One of the best for all purposes; late.

Newtown Pippin—Medium size, yellow, fine flavour; a first-class apple where it does well; late.

Nickajack—Large and handsome, cooking or dessert; late.

Peasgood's Nonsuch—A magnificent apple of enormous size; medium.

GEMBROOK NURSERIES, EMERALD

APPLES (CONTINUED)

Pomme de Neige—Flesh white, a fine market apple; medium.

Prince Alfred—A very large apple, first-class either as a dessert or cooking, will keep for eight months; medium.

Prince Bismarck—A splendid large and well-coloured apple, one of the best market sorts; medium.

Reinette du Canada—A large, popular apple, combining many good qualities; late.

Ribston Pippin—A well-known dessert variety; medium.

Rokewood (Bullock's Seedling)—A highly-coloured colonial-raised apple, and probably the best keeping variety of all; late.

Rome Beauty—A beautiful late apple and heavy bearer; one of the best.

Royal Late Cooking—A most remarkable late-keeping culinary apple, of English origin; fruit of the largest size; flesh pale yellow, exceedingly rich and juicy; tree extremely hardy and productive, also most vigorous grower.

Rymer—Skin red; an old favourite, long keeper; late.

Scarlet Nonpareil—A handsome, good-keeping, dessert variety; late.

Scarlet Pearmain—One of the prettiest apples grown, good dessert; medium.

Schroeder—Dessert and cooking; a fine variety, raised by Mr. E. Schroeder, Castlemaine.

Senator—A new apple of superior merit. For rare beauty and singularly fine quality, the choice of everyone. The great show apple at the World's Fair. Just the right size to attract buyers. Tree a vigorous grower and regular bearer; flesh yellowish white and of exquisite quality.

Sharp's Early—Raised by Mr. H. E. Sharp. Perfectly blight-proof as far as tested. Fruit of medium size and most handsome appearance, yellow ground, covered with red and crimson stripes; tree a regular and heavy cropper; ripens early in January; one of the best early dessert apples.

C. A. NOBELIUS & SONS PTY. LTD.

APPLES (CONTINUED)

Sharp's Late Red—A variety raised by Mr. H. E. Sharp. It is a vigorous grower, hardy, and prolific; fruit large; flesh yellow, firm, juicy, melting, with a rich aromatic flavour; colour, bright red on yellow ground, mottled and streaked with bright crimson; in season from June to December.

Springdale—One of Stark Bros.' finest late-keeping apples; size very large; colour, brightest red; tree hardy, good grower, with dark green foliage, and said to be a regular and heavy cropper. This new variety is very promising, and has been the winner of many prizes; tree is blight-proof.

Statesman—A local seedling raised by Mr. W. Chandler, "Como," Bayswater. The tree is an upright grower and a good bearer; fruit bright golden, striped and shaded with crimson; a good dessert and cooking variety. The raiser has kept same in good condition as late as December.

Stayman Winesap—It has fruited freely, and fully bears out the high opinion in which it is held in America as one of the very best and most handsome of long-keeping dessert apples of the finest quality. An invaluable variety for any collection, and when known will be largely planted for late market.

Stone Pippin—A well-known apple, and one of the best where it does well; late.

Sturmer Pippin—A constant bearer, good dessert, and a long keeper; late.

Summer King—A valuable early market variety, fruit large, beautifully striped crimson, red, and orange; flesh tender, crisp, juicy, and of best flavour; a prolific and regular cropper. A valuable early summer apple.

Trivett's Seedling—A medium-sized apple, good colour, heavy bearer, and blight-proof; medium.

Twenty Ounce—A very large culinary apple; medium.

Williams' Favourite—A very handsome dessert apple; early.

Worcester Pearmain—Medium size; a handsome early kitchen and dessert apple, free bearer and a favourite market apple; early.

Yates—An exceedingly handsome dessert apple; late.

GEMBROOK NURSERIES, EMERALD

DWARF APPLE TREES

2/6 each; 24/- per doz.

These are dwarfed by first working the "Paradise" on to the "Northern Spy," and then the variety on to the "Paradise." They are specially adapted for small gardens where a number of varieties are required, as they can be planted six feet apart. They produce fine fruit, and come early into bearing.

APRICOTS

On Seedling Apricot Stocks.

1/6 each; 15/- per doz.; £5 per 100.

Blenheim—A good early apricot, large, deep yellow, juicy, and rich flesh; tree regular and heavy bearer.

Campbellfield Seedling—Fine golden yellow, an excellent variety for jam-making, hardy and good bearer; medium.

Early Moorpark—Similar to "Moorpark," but earlier.

Hemskirke—Bright orange, tender, rich and juicy, and excellent bearer; medium.

Mansfield Seedling—Very large, one of the finest grown; late.

Moorpark—A well-known apricot of great excellence; medium.

Newcastle Early—Medium size; rich golden yellow with a red cheek; a regular bearer, ripening before Oullin's or immediately after Red Muscadine; requires to be heavily thinned.

Oullin's Early Peach—A large fruit of most delicious flavour; one of the best early Apricots.

C. A. NOBELIUS & SONS PTY. LTD.

APRICOTS (CONTINUED)

Precoce de Wunnie—A seedling of “Oullin’s Early Peach,” which it resembles, but ripens earlier.

Royal—Large, one of the best for drying; medium.

Shipley—Deep yellow; an early productive variety.

Tilton—A new Californian seedling; fruit very large, rich apricot colour, high flavour, uniform ripening, productive, with frost-resisting qualities and vigorous growth, which easily place it far in advance of all other varieties; for drying and canning it is much superior to any of the other sorts.

Trevatt—Fruit large, heavy bearer, quality good for canning and drying; medium.

APRICOTS ON PLUM STOCKS

We have a limited number of the following varieties on Plum stocks, these being preferred by some growers on wet land:—

Blenheim
Campbellfield Seedling
Hemskirke
Mansfield Seedling

Moorpark
Oullins
Precoce de Wunnie
Tilton

CHERRIES

On Mazzard Seedling Stocks.

2/6 each; 24/- per doz.; £6/10/- per 100.

Abesse—Of the “Red Duke” family, largely grown in Russia and East Europe. Has been tested with best results in United States. Fruit is large, dark red, delicious, almost equal to the “Heart” cherries.

Bedford Prolific—Large, handsome, black, a good market variety; medium.

Belle de Montreuil—Fruit very large, round, marbled with red; flesh firm, deep red, sugary, perfumed; early.

Belle d’Orleans—Red, tender, and juicy; early.

Bigarreau, Common—Large, fine and good bearer, pale red; medium.

„ **Gaucher**—Fruit is very large; skin is brown-red; flesh reddish, firm, juicy, and very good. Tree is a vigorous and hardy grower; early.

GEMBROOK NURSERIES, EMERALD

CHERRIES (CONTINUED)

- Bigarreau Jaboulay**—Large, dark red, remarkably rich and delicious; the earliest "Bigarreau" known; ripens twelve to fourteen days before "May Duke."
- " **Monstreux de Mezel**—A very large, handsome cherry of excellent quality; medium.
- " **Napoleon**—Large, bright red, firm; late.
- " **Noir de Schmidt**—A very large black cherry, rich and good; medium.
- " **Pellissier**—A beautiful large cherry, imported from France, measuring one inch in diameter; skin dark glossy red, flesh firm, juicy, crisp, and sugary; a first-class early variety.
- " **Rockport**—A delicious soft-fleshed cherry; early.
- " **Turkey**—Large, red and yellow, heavy bearer; medium.
- " **Twyford**—Pale yellow and red, of first-class quality; early.
- Bing**—Originated by Seth Lewelling from seed of Black Republican; fruit large, dark brown or black, very fine, late; a good shipping variety.
- Black Bohemian**—A large fine black cherry, and first-class for market; medium.
- Black Diamond**—This cherry is without a doubt the best black medium cherry; very prolific; comes in fully ten days before "Bedford Prolific"; ripens regular; fruit very large, and will no doubt be the best medium cherry for marketing; tree seen in full bearing by the producer.
- Black Eagle**—Medium size, a very heavy and regular bearer; medium.
- Black Republican**—A black variety of medium size, a most prolific bearer; medium.
- Black Tartarian**—Large, black, strong grower and very prolific, good market variety; medium.
- Burgsdorf Seedling**—A first-class cherry of colonial origin, raised by Mrs. Burgsdorf, of Harcourt.
- California Advance**—A seedling of "Early Purple Guigne"; fruit large, purple; tree a great bearer; the best early cherry.
- Centennial**—A Californian seedling of the largest size and highest excellence; tree most vigorous and robust, hardy grower and prolific bearer.
- Chapman**—Introduced from California, a seedling of "Black Tartarian," larger and finer, a better bearer, and—what constitutes its great value—much earlier, ripens immediately after "Purple Guigne."

C. A. NOBELIUS & SONS PTY. LTD.

CHERRIES (CONTINUED)

Doncaster Prolific—A local seedling, said to be an improvement on “Bedford Prolific,” being much firmer and a better market variety; medium.

Eagle’s Seedling—A fine black cherry, ripening about the same time as the “Common Bigarreau,” when black cherries are scarce; medium.

Early Lyons—Black, firm flesh, and large; early.

„ **Purple Guigne**—A delicious black cherry, large and early.

„ **Rivers**—A splendid black cherry; early.

Florence—Large, very firm, a heavy bearer, late, and first-class market cherry.

Kentish—Good for cooking and preserving, medium.

Lambert—One of the largest of all cherries, and one of the best in quality; dark purplish red, turning almost jet black when ripe; flesh firm, rich, juicy; tree a strong grower and an enormous bearer. Originated in Oregon.

Montmorency—An early cherry of the “Morello” class, said to be a week earlier than the “Kentish” cherry.

Morello—A cooking cherry; late.

Noble—A very large dark-red cherry, imported from Thos. Rivers & Sons, England; flesh firm and rich; very late. This cherry has received a First-Class Certificate from the Royal Horticultural Society, England.

Precoce de Boppard—Recommended as one of the earliest cherries grown. Skin glossy, dark brownish red, striped and spotted; flesh sweet, juicy, slightly acid; tree vigorous.

Royal Duke (Donna Maria)—Large and handsome, deep shining red, tender, juicy, and very rich; medium.

St. Marguerite—Very large, black, firm, one of the best market varieties; late.

Werder’s Early Black—A fine black cherry, heavy bearer and fine flavour; early.

Wilk’s Seedling (syn Belle Ellen)—Medium size, deep glossy black, first-class cherry; mid-season.

Windsor—Very large, dark red, nearly black, very firm; late.

GEMBROOK NURSERIES, EMERALD

NECTARINES

1/6 each; 15/- per doz.; £5 per 100.

Cardinal (Rivers)—This valuable nectarine ripens ten days ahead of “Early Rivers,” is of medium size, very brilliant colour, and exquisite distinct flavour; forms a compact, sturdy tree, and bears freely; most valuable on account of its extreme earliness.

Cooza—Freestone, ripening middle of January, produces beautifully coloured, large size fruit.

Early Rivers—Fruit of largest size, skin rich crimson on side next sun, light yellow, marked with red on shaded side; flesh is tender, juicy, and very rich, with a decided “Stanwick” flavour; very early.

Goldmine—The fruit is of an enormous size. It is a perfect freestone, the pit or stone being extremely small for so large a fruit. The flesh is a beautiful cream colour, tender, juicy, melting, and sugary, and of most delicious flavour; colour bright bronzy red; season of ripening, early February.

Hunt's Tawny—Pale orange and deep red, rich and juicy; early.

Irrewarra—Medium or above medium, highly coloured, of good flavour, a freestone, and very early.

Lees' Seedling—Fruit large, with good colour and flavour, heavy bearer, hardy, medium.

Mrs. Dr. Chisholm—A very early variety; ripe in the beginning of December.

New Boy—Fruit of largest size and extremely handsome, covered all over with brilliant crimson; flesh white, juicy, sugary, and of exquisite flavour; tree very hardy and a profuse cropper; one of the best.

Stanwick—Large, quality first class; late.

Surecrop—A seedling from Goldmine; much resembling that variety in size, flavour, and general appearance; ripens a few days later. Tree extremely hardy and productive.

Victoria Rivers—Very large, of good quality, and a heavy bearer.

PEACHES

All our Peaches are worked on Seedling Peach Stocks.

1/6 each; 15/- per doz.; £5 per 100.

Admiral Dewey—A new early yellow-fleshed freestone, ripening with “Triumph”; skin deep orange-yellow, with crimson cheek; flesh clear yellow, juicy, melting, and of superb quality. A valuable addition to early yellow peaches.

C. A. NOBELIUS & SONS PTY. LTD.

PEACHES (CONTINUED)

Alexander's Early—Very fine quality, and highly coloured.

Alton—Earlier and much better than Carman, while its rosy red cheek with a background of creamy white makes it one of the handsomest of all peaches. The flesh is white, firm, juicy, melting, and the flavour is rich and luscious; bearing when others fail. Comes on the market when good peaches are scarce, and always commands top prices. Very hardy, and best white peach.

Blackburn—A big improvement on Elberta, larger, earlier; colours well three weeks before ripening, thus can be picked quite hard; flavour excellent; good grower, and heavy bearer.

Brigg's Red May—Very early, highly coloured, rich and juicy.

Carman—A new hardy peach, ripening same time as "Early Rivers," large, roundish, with pale yellow skin, red blush on sunny side; white flesh, tender and melting; rich, sweet, and of superior flavour; the finest second early peach.

Christmas Box—A large peach, highly coloured; good quality, and a good bearer; ripening for Christmas; highly recommended; freestone.

Comet—Very large, yellow flesh, a fine canning peach; late.

Delicious—An exceedingly handsome peach; skin yellow, with minute carmine dots, red all over towards the sun; flesh yellow, stone small, flavour can only be described as "delicious"; ripens a week before "Crosby," and is the finest dessert peach of its season; a sure cropper, and invaluable for small gardens.

Early Crawford—A splendid yellow and crimson coloured peach, good for canning or dessert; medium.

Elberta—A splendid midseason peach, and spoken of in the highest terms by "The American Garden"; it is a large, handsome peach, well coloured by the sun, yields heavy crops, and carries well.

Finlayson's Seedling—One of the best late Peaches we have. Fruit large, almost round, well coloured, and of good quality.

Foster—This is considered one of the best peaches of American origin, and before all others for drying and canning; large deep orange red, with rich colour on the exposed side; flesh yellow, rich, and juicy; freestone; a few days earlier than "Early Crawford."

Globe—One of the largest, most delicious peaches; golden yellow, with beautiful red cheeks; a freestone of the largest size, with firm yellow flesh; pleasant, rich, and juicy; an enormous bearer.

GEMBROOK NURSERIES, EMERALD

PEACHES (CONTINUED)

Gold Dust—A new yellow clingstone peach. Large, round, deep yellow with a red cheek; flesh very rich, yellow and juicy, of unusually fine quality.

Golden Queen—This is a splendid canning variety, with a rich yellow flesh, and clear at the pit; proved to be a heavy bearer.

Goodman's Choice—Yellow-fleshed clingstone, good bearer; highly recommended for canning.

Hale's Early—A really first-class peach in every way, and always brings the top price in the market.

Hawkesbury Champion—This is the latest freestone peach of first-class quality, ripening from the middle of March to second week in April, and will keep twenty days after being picked if not bruised. The tree is a vigorous grower, and good, heavy cropper.

Healesville Cling—A good canning variety, the flesh being yellow and firm. Skin nicely coloured with red and yellow. Season late, said to be after Pullar's Cling, which should bring it into favour.

High's Early Canada—A very early peach of greatest excellence, ripening same time as "Briggs' Red May," but a better bearer.

Kia Ora—A seedling from "Elberta," identical in size and general appearance of the fruits with that most esteemed of all yellow-fleshed peaches, but of superior flavour; a much better cropper and hardier tree.

Krummel October—The best and most profitable late yellow freestone, ripening about two weeks later than "Salway," but larger, of higher colour, and superior in quality to that sort. A splendid shipper, and keeps well; almost round; deep yellow, with a sun blush of dark carmine; very firm, fine texture, and free from bitterness. The tree is a strong grower, vigorous, healthy, a young bearer, and extremely hardy; the fruit hangs very late—weeks without decaying.

Lady Palmerston—Similar to "Comet," better colour; late.

Late Crawford—A superior yellow peach, very large, productive, good for canning or market; late.

Le Vainqueur—A variety imported from France, ripens earlier than Sneed, good colour, freestone. We have now tested this variety, and find the fruit of excellent quality.

C. A. NOBELIUS & SONS PTY. LTD.

PEACHES (CONTINUED)

Levis Cling—Strong grower, fruit deep golden yellow, medium size, flesh clear yellow to the pit, fine grained, and excellent flavour; ripens a few days before "Tuscan." An excellent canning variety, equally as good if not better than "Tuscan."

Lippiatt's Late Red—Another fine peach, ripe first week in April; colour creamy, mottled, striped and overspread with dark red; fine flavour; tree a fine grower and an immense bearer.

Louis Grognet—Imported from France. A seedling of "Alexis Lepere," vigorous and prolific; fruit large, beautiful; flesh white, fine, sugary; freestone; ripens after "Hale's Early" and before "Grosse Mignonne Precoce."

Mayflower—Imported from France. Very early variety, ripening four or five days before Sneed, and ten to twelve days before Amsden; fruit large, of a superb carmine-red colour all over, of excellent quality; clingstone. On account of the great earliness and bright colour it should be largely planted.

Mountain Rose—A medium-size hardy peach of good quality; medium.

Muir—A large freestone peach, one of the best for canning and drying. It is a good bearer and strong grower, a most useful variety; late.

Palora—Ripens three weeks before Phillip's. Tree a strong grower, fruit golden yellow, with a slight blush of red; carries well; good bearer, and is highly recommended for canning; clingstone.

Peregrine—A distinct mid-season variety, distinguished by its good constitution and productiveness. The fruits are large and handsome, with a brilliant crimson skin; the flesh rich, highly flavoured, and parting readily from the stone. Raised by Mr. Rivers.

Phillip's Cling—A variety from America with a great reputation; described as an enormous, yellow-fleshed cling, coming in when practically all other clings are over, and should be in great demand; good grower and regular cropper.

Princess May—A colonial seedling raised by Mr. F. W. Nink, of St. Andrew's, Queenstown. He describes it as being very large, highly coloured, and of a good keeping quality, ripening in March; clingstone.

Pullar's Cling—This very fine canning peach was raised by Mr. P. Pullar, of Ardmona. It is a very large, highly coloured clingstone peach, and preferred by the canning factories above all other sorts; it is a good grower and heavy bearer

GEMBROOK NURSERIES, EMERALD

PEACHES (CONTINUED)

- Red Bird Cling**—Earliness, glorious colour, and splendid quality make it the greatest of the very early peaches. Creamy white, overspread with bright glowing red; large size, of exquisite beauty and excellent quality; flesh firm like Heath Cling, far excelling Alexander and other early sorts. Tree hardy, holds its foliage late. The first extra-early good shipping peach.
- Royal George**—A well-known variety, one of the best; medium.
- Ruby Red**—Fruit large, creamy white, almost covered with brilliant red, very melting, juicy, and of excellent quality; very heavy bearer and requires thinning. Ripens immediately after "Hale's Early," when peaches are scarce. Clingstone.
- Salwey**—Flesh deep yellow, similar to an apricot; late.
- Sea Eagle**—Very large, good colour and flavour; late.
- Sea Eagle Improved**—This is a great acquisition, being, as its name implies, an improved "Sea Eagle"; a larger peach, better colour.
- Selma Cling**—Golden yellow, slightly coloured when exposed to the sun; flesh clear to the pit; uniform in size; one of the best canning peaches; ripening after "Tuscan," when good canning varieties are scarce.
- Sims' Cling**—A variety from America. Fruit large, yellow flesh, and clear at the stone, which is small. Ripens previous to "Phillip's Cling"; classed with the best canning varieties.
- Sneed**—The earliest peach known; is said to ripen two weeks before "Briggs' Red May." It is a seedling from "Chinese Cling"; fruit medium size, somewhat oval in shape; colour creamy white with rich red blush on sunny side, ripens evenly to the pit, and is of fine quality; very early.
- Stark Early Elberta**—This peach comes from America with a great name and pages of description. It is said to be larger, better quality and colour, finer flesh, smaller stone, and from ten to twenty days earlier than Elberta; besides this, much hardier.
- Surecrop**—As the name denotes, a sure and abundant cropper; ripe middle of January; fruit large and handsome; flesh white, melting, and juicy; tree a vigorous grower and extremely hardy.
- Triumph**—The earliest yellow peach known, ripens just after "Sneed," and with "Alexander." This variety is much esteemed in United States, where it is well known.
- Tuscan Cling**—The earliest of all yellow clingstones, ripening with "Early Crawford"; fruit large and of good flavour, highly recommended for canning.

C. A. NOBELIUS & SONS PTY. LTD.

PEACHES (CONTINUED)

- Wallis Heath Free**—Immense size; quality best; flesh cream yellow, with a touch of pink. Its hardiness, vigour, and great productiveness will always make it a favourite; late.
- Wiggins**—An early freestone of large size, and most highly coloured; ripens just after "Briggs' Red May" and before "Hale." Tree very hardy and prolific bearer; flesh very rich and juicy. Most valuable as a market peach.
- Willow-leaved Elberta**—A variety of Elberta and similar, with long, willow-like leaves.

PEACHES

The following varieties were raised and are grown extensively in Doncaster, and we consider that they contain some of the world's best peaches; they give a good successive season extending from December to late February and are highly recommended for interplanting with the older varieties. Our stock was raised from selected buds taken from the best productive trees.

- Anzac**—Ripens before Hale's Early. Heavy bearer, fruit well coloured; first-class market variety.
- Catherine Ann**—Ripens before Doncaster Late Crawford, a splendid keeping peach, trial shipments having been made to London with success.
- Don Juan**—Ripens about the third week in February, has little colour; a useful peach in its season.
- Ireland's Seedling**—A first-class early eating Peach, same season as Zerbes, highly coloured and large.
- Late Crawford Doncaster**—A superior yellow-fleshed peach, heavy bearer of good coloured fruit, good for canning or market; season middle of February.
- Millicent**—A nice looking peach, heavy cropper; season, second week in February.
- Pump's Seedling**—A variety from Doncaster; nicely coloured freestone; mid-season; similar to "Zerbes."
- Smith's Seedling**—Freestone; fruit large, highly coloured; an excellent dessert peach; ripens early in February.
- Thiele's Cling**—a very late canning peach, ripening in March; fruit large; tree good grower and heavy bearer.
- Zerbes**—A very fine eating peach; good cropper, fruit highly coloured; early midseason, when good peaches are scarce; freestone.

GEMBROOK NURSERIES, EMERALD

PEARS

All on Seedling Stocks.

1/6 each; 15/- per doz.; £5 per 100.

Bartlett—See “Williams’ Bon Chretien.”

Beurre Bosc—A large dessert pear of first-rate quality; medium.

„ **de Capiaumont**—A first-class market pear, very prolific and hardy; medium.

Black Achan—Large, one of the best cooking varieties; late.

Broompark—Medium size, an excellent dessert pear; late.

Clapp’s Favourite—An American pear of highest excellence, ripens just before “Williams’ Bon Chretien”; early.

Corona—Raised by Mr. A. B. Robin, Nuriootpa, South Australia. In shape, size, and flavour, similar to Williams’ Bon Chretien, but a much better keeper, besides being of a beautiful red colour; it is expected to be the very best of all pears for shipping and market; ripens early in March.

Doyenne du Comice—Large, rich, and melting; medium.

Gansell’s Bergamont—One of the finest dessert pears; medium.

Glou Morceau—Large obovate; skin yellow; flesh buttery, melting and very juicy; of best dessert quality.

Josephine des Malines—A most delicious pear, also one of the longest keeping sorts; late.

Keiffer’s Hybrid—A very hardy and prolific variety, with a distinct pineapple flavour; late.

Packham’s Late—Another variety from Mr. Packham, who speaks in glowing terms of this, his latest production. Fruit fairly large; heavy cropper, and promises to rival “Triumph.”

Packham’s Triumph—Raised by Mr. Packham, of Molong, N.S.W. This is the finest pear we ever saw. It is of beautiful shape, large, and of the most perfect flavour; a good grower, early, and prolific bearer; ripe in April. Has received first prize every time it has been exhibited.

Ray’s Seedling—This pear is a chance seedling raised in the district. It resembles the well-known variety “Williams’ Bon Chretien,” but is later and a good keeper, good grower, and apparently a good bearer. A sample fruit was kept in our office over a month in good condition.

Swan’s Orange—A very large yellow pear; coarse, but of good quality.

Vicar of Winkfield—Large, melting, and very juicy; a very heavy, bearer, and a good market pear; late.

C. A. NOBELIUS & SONS PTY. LTD.

PEARS (CONTINUED)

Wilder—One of the earliest; good keeper and shipper; tree very vigorous; fruit medium, bell-shaped, pale yellow, with deep shading of brownish carmine; flesh whitish yellow, fine grained, tender; flavour sub-acid, sprightly, of good quality; very productive, probably the best early market pear.

Williams' Bon Chretien—Large, buttery, and melting; one of the finest summer pears grown; early.

Winter Bartlett—This fine pear originated in Eugene, Oregon. Fruit large, closely resembling the famous Bartlett in shape and appearance, but ripening four months later; flesh not quite as fine grained as the Bartlett, but tender, juicy, and melting, and with a flavour almost identical with Bartlett. Undoubtedly one of the best pears of recent introduction; late.

Winter Cole—Melting, juicy, rich, and of exquisite flavour; a first-class pear; late.

Winter Nelis—One of the finest flavoured late dessert pears.

PLUMS

1/6 each; 15/- per doz.; £5 per 100.

Angelina Burdett—Juicy, rich, and highly flavoured, purple; early.

Clyman—Dark purple, firm, and of delicious flavour. The principal merit of this variety lies in its earliness, which makes it profitable for market purposes long before other plums of this class

Coe's Golden Drop—A splendid variety, large yellow; medium.

De Montford—A beautifully flavoured plum of the finest quality; early.

Diamond—Very large, dark purple, splendid for preserving, and a heavy bearer; medium.

Early Orleans—A fine early cooking plum.

Evans' Early—Medium black, covered with bright blue bloom; the earliest plum grown.

Grand Duke—Very large purple, richly flavoured, very productive; considered the best late plum grown.

Greengage—A well-known delicious plum; medium.

Jefferson—Large golden yellow, juicy and highly flavoured, one of the best; medium.

GEMBROOK NURSERIES, EMERALD

PLUMS (CONTINUED)

Kirk's—Large black, a very fine variety; medium.

Late Black Orleans—Reddish purple, good quality, and a great bearer; late.

Magnum Bonum Red—A large red culinary plum.

Magnum Bonum Yellow—One of the best culinary plums, and a heavy and regular bearer; large yellow; late.

Monarch—Fruit very large; roundish oval; dark purplish blue; freestone; of excellent quality. Tree robust, and abundant bearer, trees three years from the graft bearing large crops of fine plums. A most valuable late market plum.

October Greengage—A first-class plum, regular and heavy bearer; late.

Pond's Seedling—Large red, a good bearer, a first-class market plum; late.

President—Very large, oval, deep purple, with a blue bloom, sweet and rich, freestone, an abundant bearer; late; First-Class Certificate, Royal Horticultural Society, England.

Purple Gage—One of the best dessert plums; medium.

Red Cherry—A well-known early plum.

Reine Claude de Bavay—A most exquisite dessert plum of the Greengage type; late.

Rivers' Early Prolific—A medium-sized plum, very prolific; early. low, very juicy and sweet; late.

Washington—Large, roundish, yellow, one of the best; medium.

DAMSONS

1/6 each; 15/- per doz.; £5 per 100.

Cole's Superior—One of the best; late.

King of the Damsons—Very prolific and large, one of the best; medium.

Merryweather—As vigorous as "Victoria Plum"; unlike all other damsons, it commences to fruit as soon as the tree is two or three years old, after which it never fails; enormous size for a damson, much above that of the largest damson grown, having the true flavour of the damson. Award of Merit, R.H.S.

Shropshire—The best for jam; medium.

PRUNES

1/6 each; 15/- per doz.; £5 per 100.

d'Agen (French Prune)—A late variety, does well about Adelaide and in most of the hot climates when irrigated. In dry places it is very liable to drop its fruit.

d'Ente (Robe de Sargeant).

Fellemborg (Italian)—One of the best for drying, making a fine sample of prune; medium to late.

French—A variety known by that name, preferred by the growers at Ardmona to Prune d'Agen.

Giant—This plum, although not a first-class prune, is a first-class market fruit, being similar to Pond's Seedling; a constant and heavy bearer.

Golden—Fruit large, light golden colour, exquisite flavour, dries beautifully; when dried 24 are said to weigh 1 lb. A strong grower and abundant bearer.

Robe de Sargeant—This is classed as one of the best prunes grown, being similar to "d'Agen," but can be picked before this variety.

Splendour—Another magnificent prune, raised from a seed of the "Prune d'Agen." The trees are perfection in growth and productiveness. As a combined drying, shipping, market and table variety it has no rival. It is a perfect freestone, and ripens two weeks earlier than the "French Prune."

Sugar—This new prune is described as far superior to the "French Prune"; tree in every respect a better grower, and will carry and mature a larger crop of fruit. The fruit is even in size and very large, averaging thirteen to fifteen to the pound. This variety is being planted in California by the thousand—a sufficient guarantee of its value.

Tragedy—Very large, purple; this is one of the finest early plums ever introduced, being as large as a "Diamond" plum, and ripening just before "Rivers' Early Prolific"; fruit sweet, and a first-class dessert variety.

JAPANESE PLUMS

1/6 each; 15/- per doz.; £5 per 100.

This is a unique class of plum, of great beauty and productiveness. The fruit is exquisitely perfumed, and with a charming, attractive bloom. The trees are exceedingly ornamental, and quite distinct from other varieties. The flesh is so firm and meaty that they can be safely shipped long distances, and kept in excellent condition. They are early, prolific bearers, and well worthy of trial by the fruit growers.

GEMBROOK NURSERIES, EMERALD

JAPANESE PLUMS (CONTINUED)

Ballena—A very large early plum; colour crimson; flesh firm, pale yellow, with a Bartlett Pear flavour; strong, upright grower and good bearer.

Beauty—Flesh yellow, with a red skin, large heart-shaped, recommended for its earliness.

Botan or Abundance—Very large, showy, and beautiful; amber, turning to rich bright cherry colour, with a white bloom; flesh yellow, juicy, tender, and of delicious sweetness impossible to describe; very early.

Burbank—Large size, nearly globular in shape; colour clear cherry red, with a thin lilac bloom; flesh deep yellow, very sweet, with a peculiar and agreeable flavour; strong grower and a most wonderful bearer.

Climax—The fruit is heart-shaped, as large as “Wickson” and more highly coloured; delicious, and, above all, ripens extremely early, before any other good plum, and nearly a month before “Wickson.”

Federation—Raised by R. H. Wright, Auckland, N.Z.—A cross between “Burbank” and “Wickson.” The fruit, in size, shape, and colour, resembles the “Wickson,” and in growth the tree is like an upright-growing “Burbank.” It is quite as productive as “Burbank.” Ripe second week in February.

Formosa—Fruit large, colour cherry red, of good quality, strong, upright grower, and heavy bearer.

Kelsey—The fruit is very large, with a remarkably small stone. It is of excellent quality, melting, rich and juicy. As a dried fruit it is equal to, if not surpassing, the best dried prunes. Colour yellow, covered with red on the sunny side; late.

October Purple—Another of Mr. Burbank’s seedlings. It is a very large, purple, heart-shaped plum, with no splashes of lighter colour; flesh amber yellow, red beneath the skin, very juicy, but yet firm, sweet, and of most delicious flavour; cling-stone.

Rubio—Large oval, crimson colour, flesh deep crimson, firm, of good quality; strong grower, and constant bearer.

Santa Rosa—Very large, purplish crimson, of first quality for desert. This is by far the best blood plum ever introduced. Strong grower, good habit, and regular bearer.

Satsuma or Blood Plum—Large and almost globular; the colour is dark red from skin to stone; flesh firm, juicy, and of a rich spicy flavour; a first-class variety.

C. A. NOBELIUS & SONS PTY. LTD.

JAPANESE PLUMS (CONTINUED)

Sharp's Early—This variety, which originated with Mr. John Sharp, of Cambridge, N.Z., is undoubtedly the best early and most profitable Japanese plum in cultivation. Of large size and splendid appearance, and of delicious flavour; the flesh is firm, yet juicy, without bitterness at stone. The tree is hardy, and an upright, symmetrical grower, and most prolific and regular cropper.

Shiro—Fruit medium to large, colour light yellow, flesh firm and juicy, good carrier; early.

Wickson—The fruit from the time it is half-grown until a few days before ripening is of a pearly white colour, but all at once a soft pink shading creeps over it, and in a few days it has changed to a glowing carmine, with a heavy white bloom; the stone is very small, and the flesh is of a fine texture, firm, sugary and delicious; one of the best.

Wilson—Very early variety, ripening November. Fruit large, yellow flesh, skin highly coloured; heavy bearer and a strong grower.

Wright's Early—Raised by Mr. H. Wright, of New Zealand. The fruit is identical with the well-known "Burbank," the only difference being the season of ripening, and habit of growth being more erect, which is a point in its favour; it is without exception the earliest known variety.

QUINCES

1/6 each; 15/- per doz.; £5 per 100.

Apple—Medium size, very prolific.

Bourgeat—A new variety from U.S.A., described as one of the finest quinces ever offered; one of the best quality; tender, ripens just after the "Orange," and keeps till past midwinter. The fruit is very large, rich golden colour, smooth velvety skin, and has so far proved to be free from leaf-blight.

Champion—Fruit very large, smooth, handsome, and regularly formed; tree very productive, bearing abundantly when quite young; early.

De Vranja—New introduction from Servia, recommended for its prolific qualities; fruit enormous, weighing nearly 3 lb.; very agreeable flavour.

Giant of Lescovaz—A new quince imported from France, the fruits often attaining up to 3½ lb.; flesh white, does not turn red when cooked; tree very prolific.

GEMBROOK NURSERIES, EMERALD

QUINCES (CONTINUED)

Manning's Seedling—The very best quince grown; the tree is a strong grower, and a very heavy cropper.

Master's Early—A very fine early variety.

Meeche's Prolific—Large, with smooth, fine skin of orange-yellow; flesh fragrant, delicious, tender, and unsurpassed for cooking; ripens just after "Champion."

Missouri Mammoth—The fruit grows to enormous size, with smooth skin and even outline, quite free from undulations about the eye; of a mild, pleasant flavour, and unsurpassed for cooking. The tree is a luxuriant grower, and bears enormously; a first-class variety.

Pear-shaped—Very large; medium size.

Pineapple—Fruit medium size; clear golden yellow; makes a superior jelly, and is said to cook as tender in five minutes as the best cooking apple, possessing a most exquisite and delicious flavour.

Portugal—A very large late quince.

Rea's Mammoth—Very large, early, and fine colour.

Smyrna—The tree is a rapid, strong grower, and immensely prolific; commences to bear the second year from the bud; the fruit is very large and of a lovely lemon-yellow colour, presenting a fine appearance. The flesh when cooked is very tender, having a delicious flavour. The fruit ripens in April, and will keep for a long time.

Van Dieman—Seedling of "Portugal." The fruit is of most superb flavour, texture, and quality for all purposes that quinces are used; it is said to be the best of all, and a very heavy and early bearer. It received the Wilder Medal at a meeting of the American Pomological Society in October, 1891.

JAPANESE PERSIMMONS

2/6 each.

These are all our own growing, and being well rooted should do much better than those imported from Japan.

The fruit of the Persimmon, when ripe, is of a deep reddish orange colour, in shape that of an orange, and some egg-shaped. The flavour, when perfectly ripe, is most luscious. It is best kept in a close jar after being picked, and is then most delicious. They ripen their fruit during winter, and in consequence furnish a valuable fruit for the table at a season when fruit is scarce.

C. A. NOBELIUS & SONS PTY. LTD.

JAPANESE PERSIMMONS (CONTINUED)

Apple-Shaped—Medium size, ripens well on the tree.

Haycheya (Red Seedless)—Very large, oblong, and a heavy cropper.

Jubilee—A very fine variety, raised in New South Wales; large, square-shaped, picked when ripening and stored; late.

Kurokumo—Medium sized, almost round, good flavour, can be eaten off the tree.

Nightingale's Seedless—The best of the lot, fruit slightly conical, a great size, no seeds. The tree has a tendency to bear too heavily; early.

Seedless—Large fruited, very fine.

Williams' Seedless—Round, flat, medium; a very heavy cropper when in bearing state, does not bear in a young state; wood upright; early.

Zenji-Maru—Fruit small, round, skin deep orange; flesh brownish. May be eaten from the tree.

PERSIMMONS, NEW.

Black Hard Fruit—Size medium to large, roundish oblong conic, flavour sweet and pleasant, colour deep red with light blue bloom, good cropper; flesh rich amber colour, medium season, picked approximately third week in May.

Oonshiu—Medium in size, four-sided oblong conic, pointed, flavour rich and luscious, deep yellowish red in colour; good cropper; flesh yellowish orange, seedless or with one seed; medium season, picked about 24th May.

Pierquiniana—Size medium to large, shape roundish conic, flavour rich and good colour, vermilion red, light bloom, fair to good cropper. Flesh pale amber colour, no seeds. Early middle April.

President Honoraty—Size medium to large, shape roundish oblong, or oblong conic, flavour rich and sweet, colour deep orange red with light bloom; very good cropper; flesh deep orange, somewhat dark. Midseason, early to middle May.

Sugar Loaf—Medium size, oblong conic, flavour rich and sweet, good, colour pale yellowish red with light bloom, fair to good cropper; flesh deep amber, seedless or one seeded. Medium season, picked about 18th May.

NEW VARIETIES

or of Recent Introduction

APPLES

All on Blight-proof Stocks, and perfectly clean.

1/6 each; 15/- per doz.; £5 per 100.

Albermarle Pippin—A great export apple. Large yellow; late keeper; excellent quality, rich, spicy flavour; a good commercial apple which is always bringing the highest prices of all the imported apples in England.

Banana (Winter Banana)—A pale yellow apple with a delicate pink blush that makes it most attractive. Its suggestive banana flavour is responsible for the name. It is not a good long-distance shipper, as the skin is very thin and the flesh tender; however, every home orchard should contain a few trees. Its wondrous beauty, peculiarly pleasing quality, and delightful aroma make it a much sought-for variety.

Banks' Red Gravenstein—Beautiful red, highly coloured, attractive as McIntosh Red. Origin, Nova Scotia, where it is grown commercially for export. A decided improvement on old Gravenstein, yet possessing all its noble qualities; because of early colouring may be marketed ten days earlier.

Crown Beauty—Is a true cross between Rome Beauty and Five Crown, habit like Five Crown, and colour similar to Rome, good bearer, and first-class quality. 3/6 each.

Elsie Grant—A true cross between Rokewood and Yates, heavy bearer, good colour.

Granny Mac—A cross between Granny Smith and McIntosh Red, in quality it resembles Granny Smith and has the colour of McIntosh Red. We expect this apple to be very popular where red apples are wanted. 3/6 each.

Grimes' Golden—A golden-yellow apple that for nearly a century has been prized by American apple lovers because of its quality and beauty. It has a firmly established place on the market, and always commands top prices. Its distinctive colouring makes it an easily recognised sort. The tree is a hardy, vigorous grower, a late bloomer, and a young bearer; should be largely planted.

Henry Clay—Large, yellow, with crimson cheek; better, more beautiful, and two months earlier than Maiden Blush; fine grower; no blight. Tree late bloomer and a heavy cropper. Originated in Kentucky. In tree excels Yellow Transparent in vigour, and has never blighted.

C. A. NOBELIUS & SONS PTY. LTD.

NEW VARIETIES (Continued)

APPLES (CONTINUED)

John Standish—This new late dessert apple was given Award of Merit by R.H.S. as a late market apple, it was shown on several occasions in 1921, both at R.H.S. meetings and the Crystal Palace show, and the crop on the branches was wonderful. The fruit somewhat resembles Worcester Pearmain, but more brilliant in colouring; it is solid, juicy, and good flavour for an apple which will keep till September or October. Price, 5/- each; 36/- per dozen.

King Albert (syn. Red Gravenstein)—A first-class Red Gravenstein. 3/6 each.

Lalla—Raised in Tasmania; it is really a red Delicious, having the habit and qualities of this well known variety. 2/6 each.

Red Pomme de Neige—Similar to the old variety, but very highly coloured. 3/6 each.

Red Shoreland (Just It)—A Red Shoreland Queen, similar in every way to this old variety but as red as a Rokewood. 3/6 each.

Red Statesman—Similar to Statesman, with a much brighter colour.

Superb (Laxton's)—This fine new apple is a cross between Wyken and Cox's Orange, and it excels the flavour of both its aristocratic parents. It is larger and later than Cox's, skin yellow, flushed with crimson, flesh white and crisp. Tree strong grower and heavy cropper. We think this will make a fine late dessert fruit both for private and commercial growers. It is self fertile. Price, 3/6 each; 30/- per doz.

Wilson Red June—Best of the Red June type; in short, the best apple of its season. Tree exceedingly young bearer, vigorous, hardy, dwarf growing. A large, deep red apple, as wondrously beautiful as Black Ben; its glorious colour and splendid summer quality are fast making it one of the greatest early apples; keeps remarkably well for an early sort. The growing demand for this handsome summer apple should be kept in mind when orchard varieties are being chosen. It is proving extremely hardy.

APPLE (Flowering).

Eleyii—A beautiful tree for foliage and flower, the foliage being of a bright reddish purple, and the flowers rich vinous red, born in clusters, followed by small coloured fruit which makes the tree very ornamental. Price, 3/6 each.

GEMBROOK NURSERIES, EMERALD

NEW VARIETIES (Continued)

CHERRIES

Smith Seedling—Same season as Big Twyford, when black cherries are scarce; fruit large black, and of good quality; early. 2/6 each.

PEACHES

Eureka—The great “ironclad” hardy peach; large in size, delicious in quality. None better of its season; good tree, bearer, and shipper. 1/6 each; 15/- per doz.; £5 per 100.

J. H. Hale—“The Million Dollar Peach,” larger than “Elberta”; round, uniform shape; colour rich golden yellow overlaid with carmine; colours up ten days before maturity; flesh solid and meaty; texture of the cling, yet perfect freestone, without grain or stringiness. Most delicious flavour; so firm, it ships almost like apples; unusually long keeper. Canning; holds shape in can, brilliant clear syrup, and does not “rag out.” Ripens five to seven days ahead of “Elberta.” 15/- per doz.; £5 per 100.

J. M. Mack—A variety from California, recommended by the Bureau of Plant Industry, Washington. The fruit is fairly large, of firm flesh, and carries well; freestone variety, free bearer. 5/- each.

PEAR

1/6 each; 15/- per doz.

Stanley

PLUM

Victoria—The well-known English variety. Fruit large, flesh yellow, very juicy and sweet; late 1/6 each; 15/- per doz.

ASPARAGUS

Conovers' Colossal—

1 year roots	10/- per 100 ..	50/- per 1,000
2 " "	12/6 per 100 ..	60/- per 1,000
3 " "	15/- per 100 ..	70/- per 1,000

BLACKBERRIES, ETC.

Himalayan—A very strong grower, with very large fruit; heavy bearer; one of the best. 9/- per doz.

Iceberg—Plant very prolific, stems strong and erect, fruit very large, white, transparent, of very good quality. 12/- per doz.

Italian Cut-leaved—This variety has most beautiful foliage in the autumn, and very fair fruit. 6/- per doz.

Japanese Golden Mayberry (*Rubus incisus*)—Berries of a golden colour. 6/- per dozen.

Japanese Wineberry—The fruit is similar to a raspberry in shape; colour bright glossy scarlet; sweet, juicy, and of agreeable flavour. 9d. each; or 6/- per dozen.

Lawton's—This is perhaps the best of all for market; it grows more like a raspberry, the bearing cane dying each year. With plenty of moisture the fruit is very large, and an enormous cropper. 6/- per doz.; or 20/- per 100.

Logan Berry, Black—The fruit of this variety when ripe is black, otherwise it is similar in size and quality to the Red Logan; strong grower. Price, 1/3 each; 12/- per doz.

Logan Berry, Red—The fruit is sometimes an inch and a quarter long, the shape of a blackberry, the colour of a dark red raspberry, and a combination of the flavours of both. 1/- each; 9/- per doz.; 35/- per 100.

Lucretia Dewberry—A new trailing blackberry, bearing large, luscious berries in the greatest profusion. 6/- per doz.

Mammoth—Raised by Judge J. H. Logan, of Santa Cruz, California, and rightly named "Mammoth" on account of the enormous size of its fruit. 6/- per doz.

CHERRIES (Double-Flowering)

3/6 each.

- Japan, No. 2**—Large double, rosy crimson, changing to light rose.
- " " **3**—Fine double pink, very floriferous.
- " " **4**—Semi-double cream colour, striped green, splashed and shaded rosy crimson.
- " " **7**—Semi-double, creamy white, splashed with green.
- " " **8**—Bluish, changing to white, large fine blooms.
- " " **9**—Double, large white flowers, stems four inches long, with three to seven flowers on each, extra fine and free grower.

GEMBROOK NURSERIES, EMERALD

CHESTNUTS

Common—18/- to 24/- per dozen.

Mammoth (Japonica Tamba)—Yields very large nuts. 3/6 each.

Parry's Giant—Strong grower, with fine large leaves, and nuts of good quality. 3/6 each.

CITRUS FRUITS

3/6 each; 36/- per doz.

3/6 to 5/- each, acclimatised.

GRAPE FRUIT

(Edible Pomelo).

This fruit is becoming very popular, partly on account of its medicinal qualities.

Marsh Seedless—Fruit of medium size, thin rind, with about half the usual bitter; almost seedless. Keeps and packs well.

Nutsumikan

Shaddock, Blood—Very large, sweet juice, excellent for preserving.

Triumph—Medium size; peel smooth, clear, thin and fine grained; few seeds; very heavy, juicy, and well flavoured.

LEMONS

Eureka—Very like the "Lisbon," but trees almost thornless.

Lisbon—A well-known variety, and probably the best of all.

Lisbon Variegata—Leaves beautifully variegated; fruit small, similar to "Lisbon," but inferior.

Sweet Rind—A variety well liked for first-quality fruit; fine skin, and growing good even size; summer-bearing variety; one of the most profitable to plant.

Villa Franca—Claimed to be chiefly a summer-bearing lemon, and on that account very valuable. It is a strong, vigorous grower, with few thorns; fruit oblong, thin skinned, and firm, adjudged by the Americans to be the best shipping variety.

LIMES

Persian or Sweet—Hardy, and of pleasant flavour.

Tahitian—A strong grower and heavy cropper; fruit nearly the size of a "Lisbon Lemon"; exceedingly thin rind; juicy and nearly seedless; for hot districts considered superior to the lemon; cannot be too highly recommended.

MANDARINS

Beauty of Glen Retreat—For extreme beauty, high flavour, and productiveness it is not surpassed by any other variety, and cannot be too highly recommended.

Emperor—The largest of the “Mandarins”; skin almost red, and loosely attached; flesh very juicy, but not so highly flavoured as “Thorny Mandarin”; the most profitable for market.

Imperial—Fruit large, and the earliest variety of all.

Thorny—Fruit medium size, quite flat; flesh very juicy; the best flavoured of all the “Mandarins,” and an immense bearer.

ORANGES

Joppa—Probably one of the best of the recent introductions from California; tree of strong growth, and very productive; fruit of nice size, and of the very best quality.

Mediterranean Sweet—Remarkable for its early bearing and late ripening; splendid flavour; one of the most esteemed in California.

Navelencia—A cross between the popular Valencia and Washington Navel; retains the good qualities of Washington, together with hardness and lateness of Valencia.

Oonshi—New seedless orange from Japan; a very hardy tree, said to stand frost well; pendulous habit, no seeds; flesh firm, thin skin; midway between an orange and a mandarin in size. This orange has fruited here, it is a heavy bearer, and is the only one that is really good in cool districts; highly recommended.

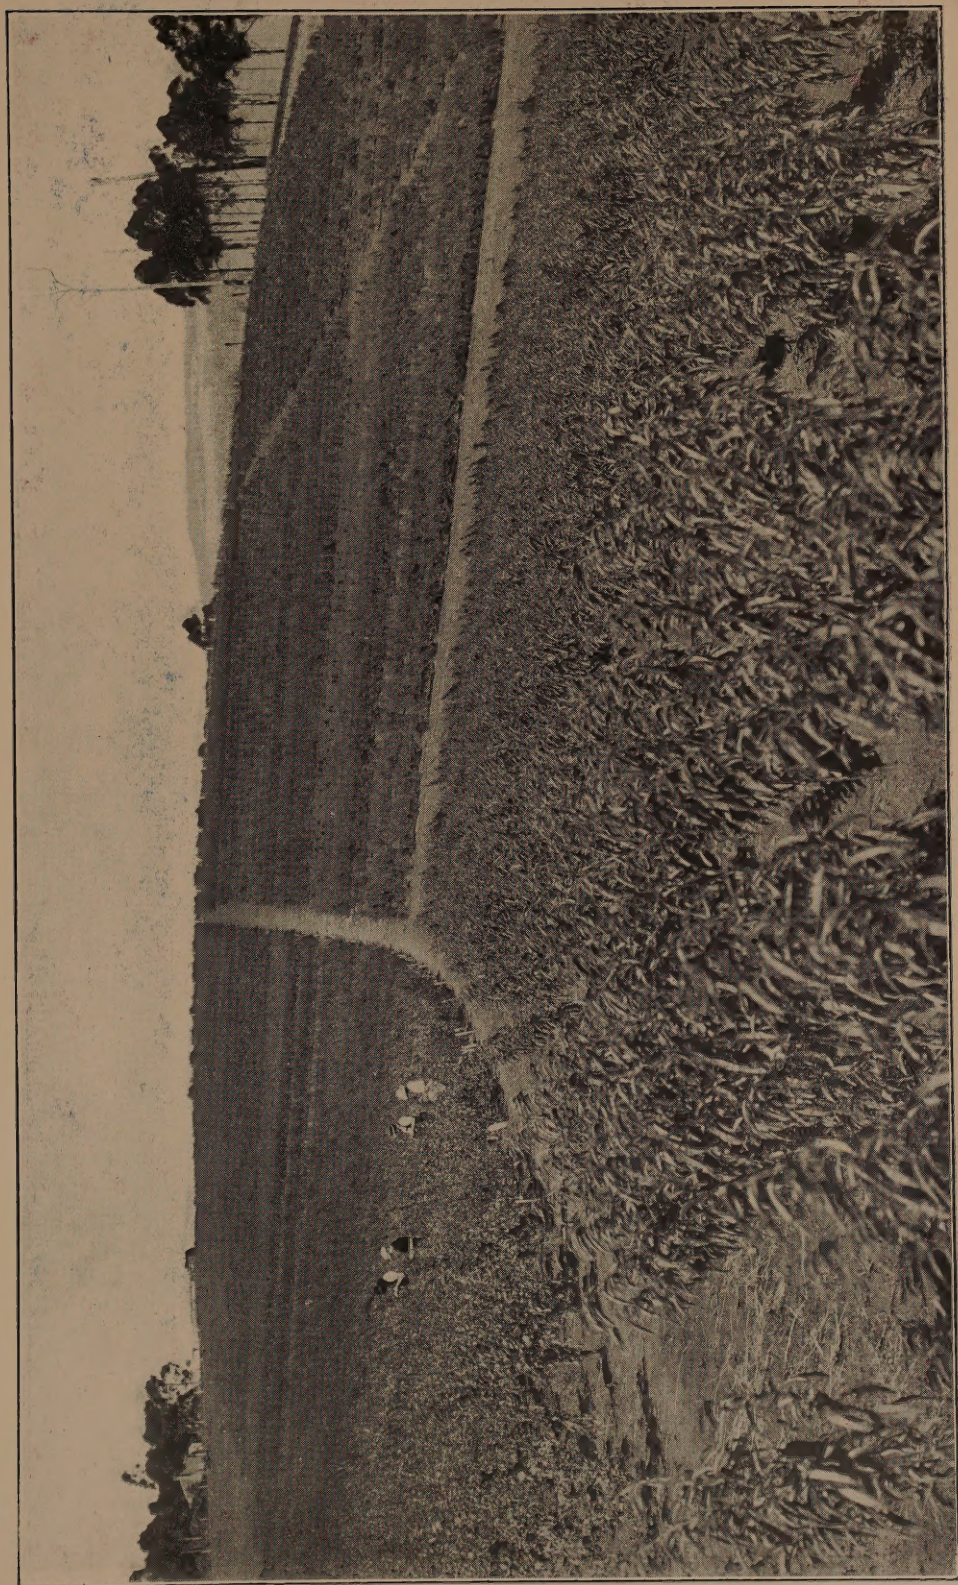

Paper Rind St. Michael—A very highly esteemed fruit in the Californian market; fruit middle size, of a deep yellow colour; tree vigorous grower.

Parramatta—Fruit large size, round, skin deep yellow, flesh very juicy, and when trees attain age fruit is of splendid quality; perhaps the best for market from its hardness and productiveness.

Poorman's—Very hardy and heavy cropper, fruit large, recommended for marmalade.

Siletta—Fruit large size, flattened; skin pale yellow, very smooth and thin; abounding in juice; hardy and an enormous bearer.

St. Michael—Fruit of largest size; skin deep yellow, smooth and thin; very juicy, but few seeds; hardy, and most profitable market variety.

GEMBROOK NURSERIES—NORTH-EAST SECTION.

NEW RASPBERRY—BRADLEY'S PRIDE.

Photograph reduced one-quarter. For description see opposite page.

NEW RASPBERRY

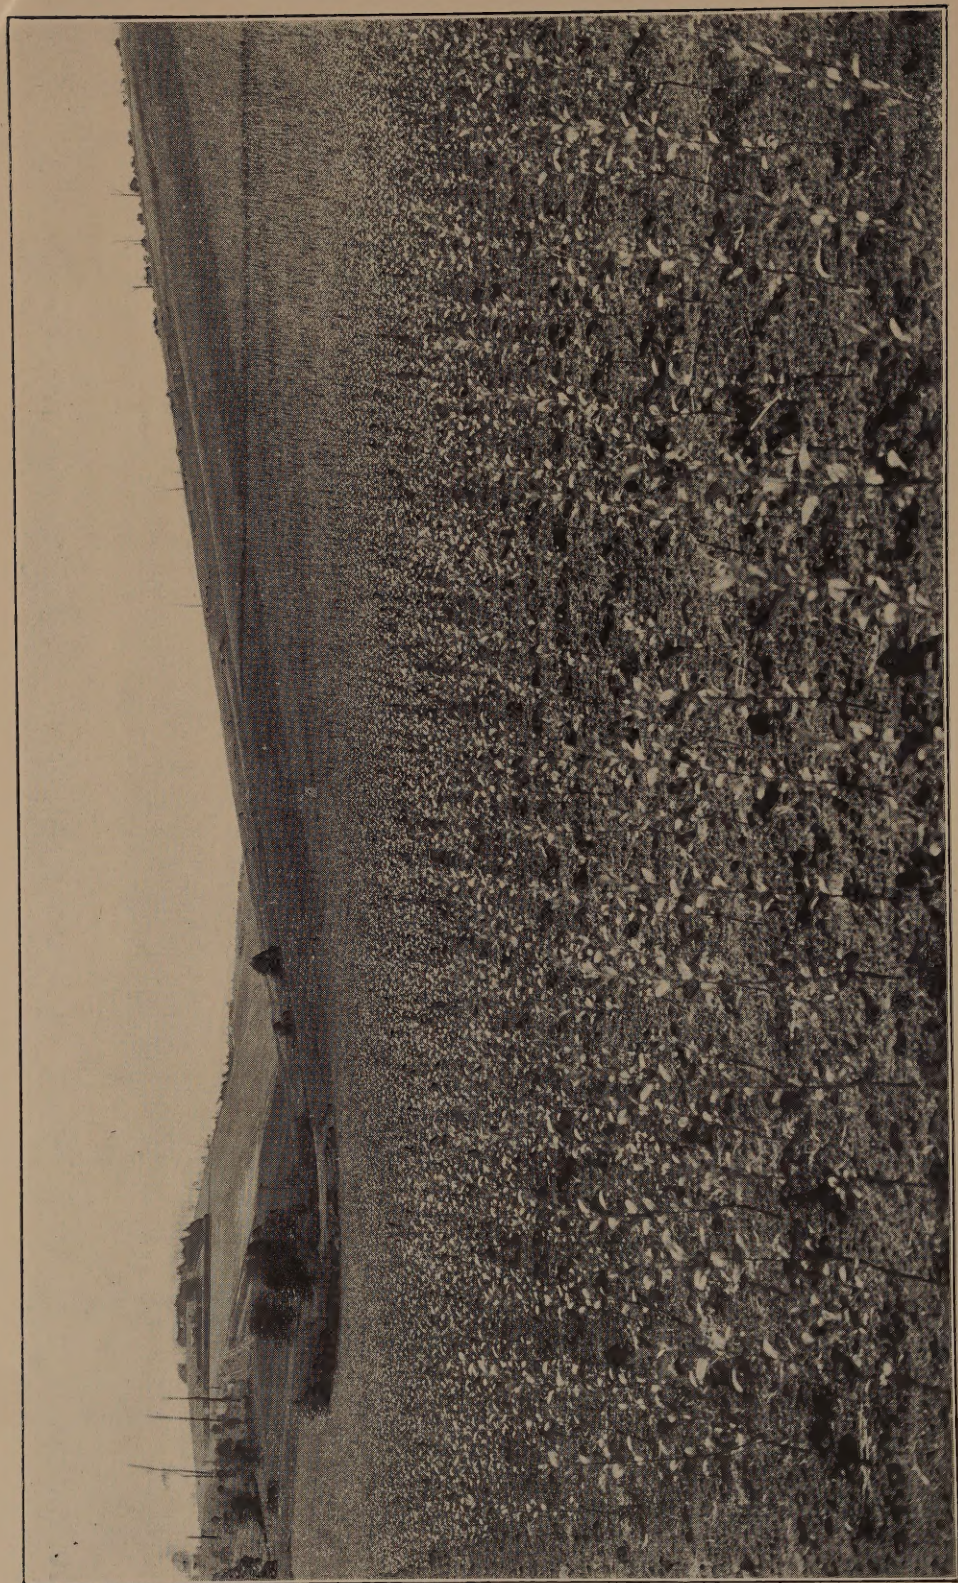

BRADLEY'S PRIDE

THIS remarkable new Raspberry is a seedling raised in Tasmania on the property of Mr. Bradley. It was brought to Victoria, where it has been thoroughly tested; it is an exceptionally strong grower, producing any quantity of canes 8 feet in height, with very few thorns. These canes, when cut back to 5 or 6 feet, produce laterals 2 to 3 feet in length, which bear enormous crops of wonderfully large berries.

The picking season extends over a long period, commencing with a light picking on Christmas Day, the main crop coming in during the first week in January, when other Raspberries are almost over, and lasting until 1st February, and with favourable weather light pickings are made in February and March.

Price, 2/- each; 21/- per dozen.

Special quotations for large quantities.

GENERAL VIEW, SHOWING PORTION OF BLOCK CONTAINING 150,000 STOCKS READY FOR BUDDING.

GEMBROOK NURSERIES, EMERALD

ORANGES (CONTINUED)

The Queen—Large, round; skin thin and deeply colored; splendid flavour and good cropper; a first-class variety.

Thompson's Improved Navel—A distinct improvement on Washington Navel; fruit equal in every way to its parent, but is earlier, and is a good, even, consistent cropper.

Valencia Late—Large, oblong, and firm. This orange is very late in ripening, and valuable on that account, as it would be marketable when other varieties are done.

Washington Navel—This is in all respects equal or superior to the "Bahia Navel," but unlike that variety it is a good cropper; in California considered to be the best of all oranges. We have seen quite small trees of this variety in Sydney loaded with most beautiful fruit.

PASSION FRUIT

Passiflora Edulis—The well-known common variety; in pots, 1/- each; 9/- per doz.; 60/- per 100. From open ground, 30/- per 100.

Passiflora Edulis. Magnum—Fruit similar to the old variety, but much larger, very full and of good flavour. Grown from selected seed. Price, 1/6 each; 12/- per doz.; 75/- per 100.

Passiflora Edulis Perfecta—Said to be an improvement on the old variety, fruit very much larger; in pots, 1/6 each; 15/- per doz.; 75/- per 100.

PEACHES (Double-Fowering)

2/- each.

Clara Meyer—Large double, bright rose colour

Crimson—Flowers very bright crimson.

Pink—Bright pink colour.

Red-Leaved—This peach is remarkable for the colour of its foliage—in the spring being a bright purple; as the season advances it changes to a deep bronze; the blossom is handsome, and the fruit, which is produced abundantly, is of fine flavour, cling-stone and striped, making it of unique appearance. Valuable for both shrubbery and orchard.

Versicolor—Large flowers, delicate pink

Weeping—Flowers red.

Weeping—Flowers striped.

White—Flowers pure white.

White and Pink—This variety has flowers both pure white and pure pink on same branches.

GEMBROOK NURSERIES, EMERALD

PRUNUS

JAPANESE ORNAMENTAL PLUMS, Etc.

Amygdalus Pollardii—A very pretty and early pink-flowered almond. 2/- each.

Prunus Blireiana flore pleno—A variety of P. Pissardi, with purple foliage and double bright rose flowers. 2/6 each.

„ **Moseri flore pleno**—Another variety of P. Pissardi, with the same purple foliage; flowers rose, double, larger than those of the type; very effective. 2/6 each.

„ **Mume**—A Japanese variety; flowers very early. 2/- each.

„ **Nigra**—Similar to Pissardi, but the foliage is much darker, flowers pale blush, very attractive. 2/6 each.

„ **Pissardi**—Leaves purple, almost black. 1/6 each.

Spinosa Purpurea—The purple leaf black thorn, small rich purple foliage which turns beautiful colours in the autumn. Highly recommended for decorative purposes. 2/- each.

Triloba flore pleno—Buds scarlet, flowers delicate rose; an abundant bloomer. 1/6 each.

Vesuvius—This is by far the finest foliaged plum; the leaves are very large, of a beautiful metallic crimson colour throughout. There is nothing in hardy deciduous trees to compare with Vesuvius for beauty, and it must become very popular for ornamental purposes. 2/6 each.

PYRUS - MALUS

FLOWERING CRAB APPLES

3/6 each; 36/- per doz.

Aurea—Leaves yellow, clear green in the centre.

Coral (Chicago)—Rich warm yellow ground, with a vermilion cheek.

Dartmouth—Deep purple crimson, large, with a fine bloom.

Floribunda (Large Fruited)—Differs from the pretty “Malus Floribunda” in the size and colour of the fruit. The tree in the autumn is as yellow as a laburnum. The flowers are as profuse as on the original tree, and are the same bright colour and very fragrant.

Floribunda Purpurea—The flowers are large single crimson or bright cherry red, buds blood red.

Oblong—Light yellow, striped with crimson and carmine.

Spectabilis—A very pretty flowering tree, with light-pink semi-double flowers.

Spectabilis fl pl Alba—Double white.

RASPBERRIES

Golden Queen—A most abundant bearer, producing fruit of the largest size and delicious flavour; colour beautiful yellow. 2/- per dozen; 10/- per 100.

Great American—9/- per dozen.

Northumberland Fillbasket—The best of all raspberries for all purposes; fruit very large, and heavy bearer. 10/- per 100. Special quotation per 1,000.

Northumberland Fillbasket, Thornless—This is exactly the same in fruit and foliage as "Northumberland Fillbasket," but the canes are entirely free from thorns. 2/- per doz.; 10/- per 100.

Our Prince—Fruit is large red, and of good flavour, late bearing variety, strong grower. 12/- per dozen.

Red Antwerp—Common red raspberry, 2/- per dozen; 10/- per 100.

RHUBARB

Early Albert—A fine early medium-sized rhubarb. 6/- per doz.

Early Giant—An improvement on Early Albert. Large stalks of good colour, fine flavour. 9/- per doz.

Topp's Winter Imp.—This is the most valuable variety, as it furnishes a large quantity of stems of very fine flavour and colour all through the winter months, when fruit is scarce. 6/- per doz.

Wilson's Ruby—Stalks short and stout, bright scarlet in colour, and good flavour. 9/- per doz.

STRAWBERRIES

Ettersburgh—The fruit hangs in bunches well clear of the ground and ripens evenly. It is of fine dessert quality with a distinctive flavour. The berry is of medium size, firm, and is an excellent carrier. For jam making and canning purposes this strawberry is far ahead of anything previously known. 4/6 for 25; 10/- per 100.

Illawarra—A strong grower, bearing large fruit of a fine flavour. 3/- for 25; 7/6 per 100.

Leura—A strong-growing variety, splendid bearer; medium-size fruit with a distinct flavour; well worth a trial. 3/- for 25/-; 6/- per 100.

Melba—This is without exception the best strawberry that has come under our notice. The fruit is large, brilliant red, and of the best flavour. We would strongly recommend this variety to strawberry growers. 2/- for 25; 5/- per 100; 30/- per 1,000.

GEMBROOK NURSERIES, EMERALD

Somner's Everbearing—Fruit large and of good flavour, heavy cropper. 3/6 for 25, 10/- per 100.

Sunbeam—Raised by Mr. Henry Prosser, of Red Hill, who speaks most highly of same; in his district it has outdone all other sorts, being a strong grower, large fruit, of good colour, and a heavy bearer. 2/- for 25; 5/- per 100; 30/- per 1,000.

Wilson's Pride—A well coloured strawberry, flesh tender and nicely flavoured, an abundant bearer of large fruit, similar to the old well-known variety, Edith Christie. Price, 2/- for 25, 5/- per 100, 30/- per 1,000.

WALNUTS

Common—A well-known variety. 18/- to 24/- per dozen.

Concord—2/- each.

Favourite de Dya—2/- each.

Japanese (*Juglans Sieboldi*)—A hard-shelled nut, good flavour and heavy bearer; this is a very beautiful ornamental tree. 2/- each; 18/- per dozen.

Jose Mayette—2/- each.

ORNAMENTAL TREES AND SHRUBS

For Shade, Street Planting, Gardens, etc.

Acacia Baileyana (Cootamundra Wattle)—Quick growing tree, beautiful yellow flowers, silver foliage, very early. 1/6 each 15 ft.

„ **Decurrens** (Black Wattle)—Large growing variety, with pale flowers; bark valuable for tanning. 1/6 each. 30 ft.

„ **Decurrens Normalis** (Queen Wattle)—Dense foliage, very fine golden flowers, tall growing. 1/6 each. 20 ft.

„ **Elata** (Cedar Wattle)—Foliage resembles the Pepper tree, pale yellow flowers, tall growing. 1/6 each. 30 to 40 ft.

„ **Fimbriata** (Fringe Wattle)—Very showy, one of the best. 1/6 each

„ **Longifolia** (Coast Wattle)—Flowers produced in great profusion, sweet scented, long narrow leaves. 1/6 each. 20 ft.

„ **Melanoxydon** (Blackwood)—Beautiful shade tree. When planted in paddocks does not affect the grass beneath it. 1/- each; 9/- per doz. 40 ft.

C. A. NOBELIUS & SONS PTY. LTD.

ORNAMENTAL TREES AND SHRUBS (CONTINUED)

- Acacia Mollissima**—Yellow. 1/6 each. 30 ft.
" **Paniculata**—Sunshine Wattle, yellow. 1/6 each.
" **Podalyriaefolia**—A fine variety with silvery foliage, making a pretty evergreen shrub. 1/6 each. 8 ft.
" **Prominens (Golden Rain Wattle)**—A large, attractive shrub of 10 to 12 feet, a great bloomer, one of the best. 1/6 each.
" **Pruinosa (Frosty Acacia)**—Grows 10 to 15 feet. 1/6 each.
" **Pycnantha (Golden Wattle)**—Beautiful large golden-yellow flowers, rapid grower, 2/- each. 20 ft.
" **Saligna (Weeping Wattle)**—The branches have a weeping habit and are covered with rich, deep-yellow flowers. 1/6 each. 15 ft.
- Acers**—(See List).
- Acmena Florabunda**—Beautiful pale mauve-white berries, produced in great profusion, hardy plant. E. 2/- each.
- Aesculus Hippocastanum** (Horse Chestnut)—Large growing tree; does well in cool, moist climate. 2/- each; 18/- to 24/- per doz.
- Amorpha Canescens**—An evergreen shrub producing spikes of small purple flowers similar in appearance to lavender. 2/- each.
- Andromeda Japonica**—A select dwarf evergreen, thriving in cool, moist spots, flowers in pendulous sprays in early spring, pure white. O.G. and 5 in. pots, 2/6 to 3/6 each.
- Arbutus Unedo** (Irish Strawberry)—Very hardy spreading evergreen tree. Flowers early in the spring, succeeded by scarlet berries resembling strawberries. 2/- to 2/6 each. 5 in. pots.
- Aronia Florabunda** (Chokeberry)—A dwarf deciduous shrub, bearing clusters of red berries, good red foliage in autumn; strong plants, 2/- each.
- Ash** (see *Fraxinus*).
- Aucuba Japonica Aurea** (Japanese Laurel)—Evergreen shrub with large ornamental foliage, will only thrive in a moist shady position. Bears red berries. 2/6 each.
- Aucuba Japonica Reticulata**—Rare variety, dwarf. 3/6 each.
- Azaleas**—(See list).
- Beech**—(See *Fagus*).
- Berberis Coryi**—A bushy semi-deciduous shrub with yellow flowers, producing coral-red berries and beautiful autumn colouring. 2/6 each.
" **Darwinii**—Evergreen shrub with dark shining foliage, rich orange flowers in spring. 2/- each.
" **Stenophylla**—An evergreen shrub covered in spring with bright yellow flowers. 2/6 each.

GEMBROOK NURSERIES, EMERALD

ORNAMENTAL TREES AND SHRUBS (CONTINUED)

- Berberis Thunbergii**—A beautiful compact deciduous shrub either in spring or autumn, bears yellow flowers, scarlet berries, and the foliage turns a brilliant scarlet in the autumn. 2/- each.
- „ **Vulgaris**—Deciduous variety, flowers yellow, followed by orange-red berries; very fine for decorations, 2/- each.
- „ **Vulgaris Purpurea**—Purple form of the common variety. 2/6 each.
- „ **Wilsonae**—A new variety of spreading habit with needle-like spines, flowers yellow, followed by berries of a cream colour which turn to scarlet in the autumn. 2/- each.
- Birch** (*Betula alba*)—A very quick-growing tree in the cooler parts; as the tree gets older the bark is quite white, and the tree of a weeping habit. 2/- each.
- Boronia Heterophylla** (*Pinnata*)—Large bright cerise flowers produced very freely. 5 in. pots. 2/- each.
- „ **Megastigma**—The well-known brown and yellow, sweetly scented. 2/- each.
- „ **Muelleri**—A Victorian variety, native of the Grampians. Pale pink. 2/- each.
- Brachychiton Diversifolia** (*Kurrajong*)—A handsome evergreen tree, flowers creamy white, very suitable in hot, dry districts for avenue or street trees, good shade tree. 2/- each.
- Buddleia Variabilis**—Clear lilac spikes, rapid and strong grower. 2/- each.
- Callicarpa Giraldiana**—Small deep violet berries remaining on the plant after the leaves have fallen. Very curious and decorative shrub. 2/6 each.
- Callistemon Lanceolatus** (*syn Citrinus*) — Evergreen native shrub with handsome crimson bottle brush-like flowers. Extremely hardy, will thrive in the most exposed situations. 2/- each.
- Calodendron Capensis**—Beautiful large flowers in terminal panicles, pinkish-white and purple, conspicuous; requires a warm position; evergreen. 2/6 each.
- Calycanthus Floridus**—A deciduous shrub which flowers in spring, reddish brown. 2/- each.
- „ **Praecox** (**Fringe Tree**)—A deciduous shrub, flowering late winter; very sweet scented. 2/- each.
- Camellias**—See list.
- Camphora Officinalis**—A fine evergreen tree suitable for hot districts. 2/- each.
- Carpinus Betulus** (*English Hornbeam*)—A fine deciduous tree somewhat resembling the Common Beech. 2/- each.

C. A. NOBELIUS & SONS PTY. LTD.

ORNAMENTAL TREES AND SHRUBS (CONTINUED)

- Catalpa Japonica**—A Japanese variety much dwarfer than any other Catalpa, flowers with us the third year from seed, when only about 4 feet high. Flowers small white, borne in large trusses intensely lined, and spotted with various colours; scented; 12 feet and very bushy. 2/6 each.
- „ **Speciosa**—A showy flowering tree, with large leaves, 2/6 each.
- „ **Syringifolia Atropurpurea**—A variety with purple leaves, during spring and early summer, 3/6 each.
- Ceanothus Azureus Grandiflorus**—Bunches of beautiful blue flowers produced in great profusion; highly recommended for every garden; hardy evergreen. 2/6 each.
- „ **Divaricatus**—Deep glossy foliage and pale blue flowers; evergreen. 2/6 each.
- Ceratonia Siliqua**—An evergreen tree of 15 feet, with deep-green foliage and small yellow flowers. 2/6 each.
- Cercis Siliquastrum**—A small hardy, deciduous tree with attractive pea-shaped, rosy-red flowers clustered on the branches before the foliage appears. 2/6 each.
- Chamaecerasus** (*syn Lonicera*)—Shrubby Honeysuckle. Hardy deciduous free flowering shrubs of 3 to 4 ft., that will thrive in any situation, quite distinct from the climbing honeysuckle. Some varieties have a most delicious perfume. All 2/- each.
- „ **Chrysantha**—Yellowish white.
- „ **Fragrantissima** (*syn Standishi*)—Creamy white, highly scented, tall growing, 6ft.
- „ **Grandiflora Rosea**—Flowers bright pink, bordered white. Strong plants, 2 ft. high.
- „ **Morrowi**—Yellowish white.
- „ **Sempervirens**—White, very fragrant, tall growing.
- „ **Tatarica**—Rosy white, turning yellow.
- „ „ **Flora Alba**—Yellowish white.
- „ „ **Grandiflora Rosea**—Beautiful bright pink.
- „ „ **Rubra**—Dark rose.
- „ „ **Speciosa**—Clear rose.
- „ „ **Virginalis Alba**—Pure white.
- Choisya Ternata** (**Mexican Orange Flower**)—A beautiful free-flowering evergreen shrub of 4 to 5 ft. with glossy foliage and clusters of white fragrant flowers in early spring. Will thrive in any soil or situation. 2/6 each.
- Cistus Cyprius**—A handsome shrub of 5 ft., bearing poppy-like flowers of a silky white, with a maroon centre; flowers over a long period. 2/- each.

GEMBROOK NURSERIES, EMERALD

ORNAMENTAL TREES AND SHRUBS (CONTINUED)

- Clethra Arborea** (Lily of the Valley Tree)—A fine evergreen shrub producing clusters of white flowers similar to Lily of the Valley. 2/6 each.
- Conifers**—See list.
- Cornus Alba**—The Siberian Dogwood tree, a hardy large growing shrub. White flowers and red bark. 2/- each.
- „ **Florida**—One of the North American species of Dogwood, very beautiful when in flower. 2/- each.
- Corylus Avellana Purpurea**—Purple-leaved Filbert. 2/6 each.
- Cotoneaster**—A dwarf evergreen shrub bearing masses of red berries during the autumn and winter months.
- „ **Derisiana**—Best habit of all, upright. 2/- each.
- „ **Francheti**—Spreading variety, silvery foliage. 2/- each.
- „ **Microphylla**—Prostrate habits, suitable for rockeries; purplish red berries. 2/- each.
- „ **Salicifolia**—Slender branches, glossy green foliage. 2/6 each.
- „ **Simonsii**—Branching shrub of 4 feet, with bright green foliage which colours beautifully in the autumn. Red berries. 2/- each.
- Crataegus** (see Hawthorn).
- Cydonia** (Japanese Quince)
- „ **Alba Cincta**—White. 2/- each.
- „ **Candidissima**—Pink and white. 2/- each.
- „ **Moerloosii**—Rosy white and carmine. 2/- each.
- „ **Umblicata**—Bright rose. 2/- each.
- Cytisus Proliferus** (Tree Lucerne)—A quick-growing hedge plant. 1/- each; 8/- per doz.
- Daphne Indica Rubra**—A favourite dwarf evergreen, producing sweetly-scented red and white flowers in winter, and early spring. 5/- to 7/6 each.
- Deutzia Crenata Candidissima Plena**—A very ornamental, hardy, small growing deciduous shrub, free bloomer of double white flowers. 2/- each.
- „ „ **Magnifica**—Flowers double white, produced very freely; one of the best. 2/- each.
- „ **Fortunei**—Pure white, very floriferous. 2/- each.
- Dielytra Spectabilis** (Bleeding Heart)—A perennial plant bearing pendulous heart shaped flowers, deep pink and white, 2/6 each.
- Eleagnus Japonica**—A fine ornamental evergreen shrub with glossy foliage. Popular hedge plant. 2/- each.
- „ **Longipes**—A hardy deciduous shrub producing an abundance of red berries. 2/- each.

C. A. NOBELIUS & SONS PTY. LTD.

ORNAMENTAL TREES AND SHRUBS (CONTINUED)

- Elms** (*Ulmus*)—Requiring good heavy soil to do well. 3/- each; £12/10/- per 100.
- „ **Canadian**—A good street tree, of rapid growth.
 - „ **Chichester**—Large, broad leaved, upright growth.
 - „ **Cork**—Very hardy variety, with rough bark. 24/- per doz.
 - „ **Dampieri**—A small tree with rich golden leaves. 3/6 each.
 - „ **English**—One of the best, rather slow growing at first, but will ultimately grow larger than any other sort.
 - „ **Horizontalis**—On tall stems. 21/- to 42/- each.
 - „ **Huntingdon**—A good growing variety, and first-class for street planting.
 - „ **Montana Dovei**—A first-class novelty, large leaved, strong grower, and good habit.
 - „ **Montana Major**—Large leaves, habit spreading and irregular, good in some places.
 - „ **Monumentalis**—Small leaves, very upright, almost like an upright poplar; good for single specimen.
 - „ **Picturata**—With very pretty large variegated foliage; a good specimen tree. 3/6 each.
 - „ **Purple**—Good grower, leaves purple when young.
 - „ **Scabra Lutescens**—A golden-leaved variety. 3/6 each.
 - „ **Turkestanica**—A distinct variety with smallish leaves, compact grower. 3/6 each.
 - „ **Umbraculifera**—A compact-growing tree, and quite distinct from any other elm. 3/6 each.
 - „ **Weeping**—Strong trees on tall stems. 21/- to 42/- each.
- Elsholtzia Stauntoni**—An evergreen shrub with large spikes of purple flowers. 2/- each.
- Erica Wilmoreana**—Pink and white; fine hardy variety. 1/6 each; 15/- per dozen.
- Eristemon Myoporoides** (*syn Nerifolium*)—Hardy dwarf shrub of 2 to 4 feet, covered in spring with pale pink star-shaped flowers, will thrive in any open situation; very free flowering. 2/6 each.
- Escallonia Exoniensis**—A fine evergreen flowering shrub, flowers creamy pink, very hardy. 2/- each.
- „ **Fretheyii**—Flowers a good pink, produced over a long season, and makes a nice shrub. Good for cut flowers. 2/6 each.
 - „ **Pendula**—Flowers rose colour, dark-green leaves, of drooping habit. 2/- each.
 - „ **Rosea**—Flowers coral pink, very hardy. 2/- each.
 - „ **Rubra**—Flowers red, blooming from January to March, very handsome and free flowering, foliage rather attractive. 2/- each.

GEMBROOK NURSERIES, EMERALD

ORNAMENTAL TREES AND SHRUBS (CONTINUED)

Eucalyptus—See list.

Eugenia Ugni—A pretty flowering evergreen shrub, bearing small red, sweet-flavoured fruit. 2/- each.

Fagus Sylvatica (Beech Common)—A splendid tree for cool districts, good for specimens or avenue planting. 2/- each.

„ **Purpurea**, grown from seed, foliage purple colour, small plants. 2/6 each.

„ **Purpurea, Grafted**—This variety is much darker, almost black; very fine, small plants. 3/6 each.

„ **Tricolor**—This variety has purple leaves, margined with white, rose and crimson. 3/6 each.

Felicia Angustifolia—A small hardy shrub covered in early spring with small purple daisy-like flowers. 2/- each.

Forsythia Fortunei—A pretty dwarf growing shrub, free flowering. 2/6 each.

„ **Intermedia Vittelina**—A dwarf growing deciduous shrub, a new variety. We consider this the best of all Forsythias, being upright in habit, about 4 feet, and thickly covered with yellow flowers all over the branches before the leaves appear. 2/6 each.

„ **Viridissima**—Flowers yellow, attractive bell shaped, opening early in the spring. 2/- each.

Fraxinus Americana (Alba)—A tall growing tree with beautiful dark-green foliage. 2/- each.

„ **Excelsior** (English Ash)—Does well in cool parts of Australia. 2/- each.

„ **Excelsior Aurea**—The golden Ash, beautiful golden foliage. 3/6 to 5/- each.

„ **Ornus** (Manna Ash)—Greenish white; makes a very handsome tree. 2/- each.

„ **Oxyphylla**—A sharp leaved variety of Ash with attractive foliage; attains 20 feet. 2/6 each.

Genista Purpurea (*Cytisus Purpureus*)—A beautiful Alpine shrub with small rosy purple flowers borne in pairs in the axils of the leaves. 2/- each.

Ginkgo Biloba (*Syn.* “*Salisburia Adiantifolia*”)—The maidenhair tree. 2/6 each; 24/- per doz.

Grevillea Robusta (Silky Oak)—Handsome ornamental foliage, flowers orange in the early spring. 2/- each.

• **Guava** (*Psidium cattleianum*)—Evergreen shrub bearing purple fruit which makes an excellent jelly; extra strong plants. 2/- each.

Hakea Laurina—A handsome small evergreen tree, producing scarlet flowers during winter. 2/- each.

C. A. NOBELIUS & SONS PTY. LTD.

ORNAMENTAL TREES AND SHRUBS (CONTINUED)

- Hawthorn** (*Cratægus*)—Flowering and fruiting varieties.
- " **Crenulata**—Evergreen shrub with white flowers followed by red berries which completely cover the branches. Very effective as a garden shrub; also makes a very fine hedge. 2/- each.
- " **Double Crimson**—2/- each.
- " " **Pink**—2/- each.
- " " **White**—2/- each.
- " **Pyracantha** (*Coccinea*)—A tall growing variety with orange red berries. 2/- each.
- " **Rogersiana Flava**—A new variety with beautiful yellow berries. 2/- each.
- " **Yunnanense**—A spreading variety with coral red fruits heavily produced. 2/- each.
- Hibiscus Syriacus**—Hardy deciduous shrubs which will thrive in any climate, flowering late December, January, and early February, when most shrubs have finished flowering. 2/- each.
- " **Admiral Dewey**—Double white, large flowers.
- " **Amarantus**—Double violet rose.
- " **Ardens**—Double violet rose.
- " **Cœlestis**—Single azure blue, very fine, and one of the finest flowering shrubs obtainable.
- " **Double Violet.**
- " **Duc de Brabant**—Very double, dark red.
- " **Elegantissimus**—Semi-double, rosy white.
- " **Grandiflorus Superbus**—Semi-double, rosy white.
- " **Jeanne d'Arc**—Double white, exterior rosy.
- " **Ranunculiflorus plenus**—Double white.
- " **Rubis**—Large single, deep red.
- " **Souv de Charles Breton**—Single or semi-double, violet.
- " **Speciosus Ruber**—Double violet red.
- Holly, English** (*Ilex Aquifolia*)—5 in. pots. 2/- each.
- " " " " —Variegated sorts. 2/6 each.
- Horse Chestnut** (*Æsculus Hippocastanum*)—A large growing, handsome flowering tree; does well in cool, moist climate. 18/- to 24/- doz.
- Hydrangeas**—See list.
- Jacaranda Mimosaefolia**—A semi-deciduous tree of 15 to 20 feet, with attractive foliage, covered in summer with large bunches of light purple flowers, very showy. Requires protection from the frost while young. 2/6 each.
- Jasminum Nudiflorum**—A sweetly scented flowering plant, useful as a climber and can be grown as a shrub; produces yellow flowers in winter. 2/- each.

GEMBROOK NURSERIES, EMERALD

ORNAMENTAL TREES AND SHRUBS (CONTINUED)

- Kerria Japonicus flore pleno**—Hardy deciduous shrub with bright double yellow flowers. 2/- each.
- Koelreuteria paniculata**—A hardy tree with beautiful foliage, colouring well before falling in the autumn, bears yellow flowers. 2/- each.
- Laburnum** (*Cytisus Laburnum*)—A well-known yellow flowering tree, of free growth. 2/- each.
- Laurel**—Useful for large hedges in cold moist climate. 9/- doz.; 60/- per 100.
- Lasiandra Edwardsii**—A new free blooming variety, hybrid between *Macrantha* and *Grandiflora*. Colour rich royal purple. 2/6 each.
- Leucadendron Argenteum** (Silver Tree)—Very handsome evergreen tree with soft, silvery foliage which is most effective all the year. 2/- to 2/6 each.
- Lilacs**—See list.
- Liquidambar Styraciflua**—A fine foliage tree, similar to a Maple in foliage, and changing to a beautiful yellow and crimson colour in the autumn. 2/- each.
- Liriodendrum Tulipifera**—The Tulip Tree grows well in the cooler parts of Australia; a fine foliage and flowering tree. 2/- each; 18/- per doz.
- Luculia Gratissima**—An evergreen shrub of great merit, producing bunches of soft pink scented flowers in mid-winter; requires a sheltered position. 3/6 each.
- Magnolia Grandiflora**—Magnificent broad-leaved evergreen shrub; produces immense fragrant, bowl-like white flowers. 3/6 each.
- „ **Lennei**—Deciduous, beautiful large purple flowers. 3/6 each.
- „ **Obovata**—Flowers white, the outside being purple, veined with deeper colour, making a striking contrast. 3/6 each.
- „ **Purpurea**—Flowers deep purple, bushy habit; makes a fine large shrub. 3/6 each.
- „ **Soulangeana**—The common variety, flowers flesh colour shaded purple on the outside. 3/6 each.
- Melia Azedarach** (White Cedar)—A hardy deciduous tree with large ash-like foliage, produces lilac coloured flowers in spring, followed by yellow berries. A fine shade tree that does well even in hot, dry districts. 1/6 each.
- Metrosideros Tomentosa**—The New Zealand Christmas Bush, produces spikes of brilliant crimson flowers, does well near the coast. Evergreen. 2/- each.

C. A. NOBELIUS & SONS PTY. LTD.

ORNAMENTAL TREES AND SHRUBS (CONTINUED)

Mountain Ash (*Sorbus Aucuparia*)—A quick-growing tree in cool districts, bearing large clusters of red berries. 2/6 each.

Oak (*Quercus*).

„ **Bicolor**—Large leaf variety, turning scarlet in the autumn. 2/6 to 5/- each.

„ **English**—A well-known variety. 2/6 each; £10 per 100.

„ **Lusitanica**—The evergreen variety. 2/6 each.

„ **Macrocarpa**—Leaves very large, making beautiful autumn foliage. 2/6 to 5/- each.

„ **Palustris**—Known as the Scarlet Oak, very fine in the autumn. 2/6 to 5/- each.

„ **Turkey** (*Cerris*)—A good grower with pretty foliage. 2/6 each; 24/- per doz.; £10 per 100.

Paeonia Alba Flora—Six varieties of various shades of colour. 3/6 each.

Paulownia Imperialis—A quick-growing tree, with large leaves and sweetly-scented blue flowers. 2/- each.

Pavia (*syn. Æsculus Macrostachya*)—Known as the autumn flowering horse chestnut. A shrubby variety with long terminal panicles of white flowers. Thrives best in moist clayey soil, and should be allowed to make a large mass. 2/- each.

Peaches, Double-Flowering sorts—2/- each. (See list.)

Pepper Tree (*Schinus Molle*).—1/6 each; 12/- per doz.

Philadelphus—See list.

Pittosporum Nigrescens—The small leaved variety with black flowers and stems, very hardy. 1/6 each, 12/- per doz.

„ **Undulatum**—Foliage large dark green, flowers creamy white, sweetly perfumed. 12/- per doz.

Planes, Oriental (*Patanus Orientalis*)—A well-known tree for street planting; does well almost anywhere. 2/6 each; £10 per 100.

Pomegranate (*Punica granatum*)—1/6 each; 12/- per doz.

Populus Alba—The well-known Silver Poplar. 18/- per doz.

„ **Bolleana**—An improved Silver Poplar. 18/- per doz.

„ **Canadensis Aurea Van Geerti**—A small-growing variety with golden leaves. 2/- each.

„ **Dilitata** (Lombardy)—Upright Poplar, well known. 18/- per doz.

„ **Golden**—A brilliant tree producing golden colour from spring to autumn. Yearling trees 6 feet high available. 2/6 each, 24/- per doz.

„ **Macrophylla** (Ontario Poplar)—A strong-growing variety with large leaves, the best for street planting. 18/- doz.

GEMBROOK NURSERIES, EMERALD

ORNAMENTAL TREES AND SHRUBS (CONTINUED)

- Populus Monilifera**—A free-growing variety and shapely tree. 2/- each; 18/- per doz.
- „ **Monilifera Aurea**—2/- each; 18/- per doz.
- Privet** (Evergreen)—A well-known hedge plant. 15/- per 100.
- „ (Golden)—A very ornamental hedge plant. 20/- per 100.
- „ **Ovalifolium**—The large leaf variety. 20/- per 100. Specimen bushes 2/- each.
- „ **Elegantissima** (Japanese golden variegated)—6/- per doz.; 40/- per 100.
- Prostanthera Sieberi**—Hardy evergreen shrub, completely covered in the early spring with light lilac flowers. 1/6 each.
- Rhododendrons**—See list.
- Rhus Succedanea**—The best of all the Rhus family, the leaves turning a beautiful crimson in the autumn. 1/6 each.
- Ribes Sanguineum** (Crimson Flowering Currant)—1/6 each.
- „ **Sanguineum Atrosanguineum**—A quick growing shrub similar to the common variety, but the flower is of a deeper red. 2/- each.
- Robinia Bessoniana**—A noble looking tree of fine regular growth, very ornamental, and one of the best trees for planting avenues. 2/6 each; 24/- per doz.
- „ **Decaisneana**—A variety remarkable for its vigour and the abundance of fine rose coloured flowers it produces. 2/6 each.
- „ **Kelseyi**—A large growing shrub with attractive foliage, produces an abundance of very fine rose coloured flowers, makes a handsome plant, one of the best of the Robinias. 5/- each.
- „ **Monophylla**—Strong grower, flowers white, shaded with delicate pink. 2/6 each.
- „ **Rosea**—A very pretty dwarf-growing variety, with large rose-coloured blooms. 2/6 each.
- Sambucus Nigra Aurea** (Golden Elderberry)—A beautiful deciduous shrub of 10 feet, with attractive golden foliage; will thrive anywhere. 2/- each.
- Schinus Molle**—The well-known Pepper Tree, 1/6 each; 12/- per doz.
- Sorbus Aucuparia** (see Mountain Ash or Rowan Tree)—2/6 each.
- „ „ **Fructu Lutea (Fifeana)**—Similar in every respect to the common Rowan tree, but berries are yellow. 3/6 each.
- „ **Cuspidata (Vestitia)**—Broad leaved variety large berries. 3/6 each.

C. A. NOBELIUS & SONS PTY. LTD.

ORNAMENTAL TREES AND SHRUBS (CONTINUED)

- Spartium Album** (White Broom)—Produces pure white flowers in the early spring, clustered on the long rush-like branches. 2/- each.
- „ **Junceum**—Golden-yellow pea-shaped flowers; first-class hedge plant. 6/- per doz.; 30/- per 100.
- Spirea Prunifolia**—A very hardy deciduous shrub, flowers white 2/- each.
- „ **Van Houttei**—Another hardy white flowering variety. 2/- each.
- Stenocarpus Sinuatus** (Fire Tree)—Beautiful palmate foliage, flowers bright scarlet. 2/6 each.
- Symphoricarpos Fructu Albo** (Racemosus)—A very hardy dwarf deciduous shrub, flowers pink, followed by large snow-white berries. 2/- each.
- Syncarpia Laurifolia** (Turpentine Tree)—Fine evergreen, of rapid growth, suitable for avenue or street planting, tender, easily cut by frost. 2/- each.
- Tamarix Africana**—A very hardy deciduous tree suitable for poor soils or sea coasts, strong grower, flowers pink. 2/- each.
- Telopea Oreades** (Tasmanian Waratah)—A small and more easily grown form of the well-known N.S.W. Waratah, flowers freely produced, deep red and somewhat flat, very hardy. 2/- each.
- Tilia Europea** (Lime or Linden)—A first-class ornamental tree for cool districts. 2/6 each; 24/- per doz.
- „ **Platophylla**—Much larger leaves than the Europea. 2/6 each.
- Tristania Conferta**—A fine quick-growing evergreen tree with broad foliage. Suitable for street planting in hot districts. 2/- each.
- „ **Laurina**—A quick growing evergreen tree, producing yellow flowers. 2/6 each
- Veronica Parviflora** (for Hedges)—40/- per 100.
- Viburnum Bituensis**—Similar to Carlesii, flowers not as large, beautiful autumn foliage. Deciduous. 3/6 each.
- „ **Carlesii**—A very hardy flowering shrub, flowers white, shaded pink, resembling the shape of Bouvardia flowers, very sweetly scented. Deciduous. 3/6 each.
- „ **Macrocephalum** (Chinese Guelder Rose)—An evergreen shrub with enormous white flowers. 3/6 each.
- „ **Opulus flore pleno**—The Guelder Rose or Snowball tree. Good for autumn foliage. 2/- each.
- „ **Sandankwa**—Pretty white flowers, like Bouvardia; blooms freely. 2/6 each.
- „ **Tomentosum**—Evergreen, producing large heads of white flowers. 2/- each.

GEMBROOK NURSERIES, EMERALD

ORNAMENTAL TREES AND SHRUBS (CONTINUED)

Virgilia Capensis—A very fast-growing shrub with attractive foliage and handsome pea-shaped purple and white flowers. 2/- each.

Weigelas—See List.

Willow, Coerulea (Bat Willow)—1/6 each.

„ **Golden** (Vitellina)—1/6 each; 12/- doz.

„ **Rubra** (Pussy Willow)—1/6 each.

„ **Weeping** (Babylonica)—1/- each; 9/- per doz.

Wistaria Brachybotrys—A magnificent white-flowered variety, a most profuse bloomer and lasting in flower longer than any other variety. 3/6 each.

„ **Fragrans**—White scented. 3/6 each.

„ **Magnifica**—3/6 each.

„ **Multijuga**—Lavender. 2/6 each.

„ „ **Alba**—White. 2/6 each.

„ „ **Rosea**—Pale pink. 2/6.

„ **Sinensis**—Flowers pale lavender. 2/6 each

„ „ **Alba**—White. 2/6 each.

ACER (Palmatum)

(MAPLES OF JAPAN)

5/- to 7/6 each.

The famous Japanese Maples; none of the autumn trees excels these; some change their colours of leaves to yellow or orange, other to red in autumn. Some of the varieties giving their rich crimson colouring in spring, when they shoot as well as autumn before they fall.

Atropurpureum—Deep maroon, large regular palmate.

„ **Dissectum**—Deep maroon, richly fringed feathery leaflets, drooping nature.

„ **Variegatum**—Deep maroon, variegation on bright crimson.

Aureum—Circular shape, obtusely cut yellow leaves.

Japonicum—Circular large green leaves with shallow segments.

„ **Filicifolium**—Deeply cut leaves of Acer Japonicum.

Okushimo—Small, beautiful green leaves, rolled in from both edges.

Osakazuki—Large leaved, regular palmate, light maroon, changing to blood red in autumn.

Oshiu-beni—Deep maroon, but leaves more deeply cut and smaller.

Polymorphum (Japanese Maple, from seed)—2/6 to 5/- each.

Reticulatum—Green network variegation on yellow ground.

Rosa-marginalis—Green, small leaves, crimson margined.

C. A. NOBELIUS & SONS PTY. LTD.

ORNAMENTAL TREES AND SHRUBS (CONTINUED)

- Roseum**—Small palmate leaves margined with deep pink.
Sanguineum Chishio—Blood red, regular palmate, small leaves.
 Seigen—Blood red palmate, colouring in middle spring.
Scolopendrifolium Green—Green, narrow leaflets.
 Rubrum—Red, narrow leaflets.
Versicolor—Very attractive, crimson, white and green; irregularly variegated.
-

ACER (Tree varieties)

- Colchicum Rubrum**—Foliage reddish purple, very fine. 2/6 each.
 Viridis—Green foliage. 3/6 each.
Dasycarpum Wieri Laciniatum—Cut leaved silver maple, remarkable for its drooping branches, and finely divided foliage. 7/6 each.
Negundo—The green, ash-leaved Maple, with large three-lobed foliage, turning bright yellow in the autumn. 2/- each.
Negundo Argenteum Variegatum—Very fine foliage, leaves nicely variegated, bordered and marked silvery white. 5/- each.
Negundo Aureum Variegatum—Foliage beautiful green and golden variegated, one of the most conspicuous plants we have. 5/- each.
Pseudo Platanus (Sycamore)—12/- to 18/- per doz.
Rubrum (Red Maple)—A most beautiful tree, flowers scarlet before the leaves appear, foliage green, turning rich blood red in autumn; grows 20 to 30 feet. The finest of all the tree maples for autumn effect. Small plants only, 3/6 each.
Virginianum (*syn. Dasycarpum*)—The white or silver maple of the Eastern United States. A fast growing tree, very good for avenue or shade. The foliage is deep green above and silvery white beneath. In early spring the rosy tinted small flowers clothe the leafless branches, giving a nice effect. 3/6 each.
Virginianum Heterophyllum Laciniatum—3/6 each.
Virginianum Novum Cristatum—3/6 each.
-

AZALEAS (Indica)

2/- to 3/6 each, according to size.

- Adolphe de Haene**—Very large double pinkish-white
A. de Vervaene—A compact free growing variety, double deep rose colour.
Amoena—Rich crimson, semi-double, one flower inside the other, small flowers produced in great abundance.
Bernhardt Andreas Alba—Double, pure white; late.

GEMBROOK NURSERIES, EMERALD

ORNAMENTAL TREES AND SHRUBS (CONTINUED)

- Charles de Buck**—Bright amaranth, single, large and fine.
- Charles Pyneart**—Semi-double, pale pink, dark centre.
- Charmer**—Bright amaranth, splendid large single flowers; grows very freely.
- Comte de Chambord**—Single, salmon rose, bordered pure white.
- Comtesse de Flandres**—Single bright rose, large well-shaped flowers.
- Comte de la Torre**—Semi-double large rose, flowers bordered with white, dark blotch in centre.
- Dame Melanie**—Single bright pink, bordered with white, very floriferous.
- Deutsche Perle**—Beautiful early pure double white, blooms profusely and forces well; valuable for floral work.
- Dr. Moor**—Rose double, edged with white.
- Emille Vervaene**.
- Emperance**—A pleasing shade of heliotrope, semi-double, a popular variety.
- Empress of India**—Rosy salmon, carmine blotch; a handsome semi-double variety.
- Eugene Mazel**—Single bright red, shaded lilac.
- Flag of Truce**—Double pure white, large flowers.
- Friers Pink**.
- General Postmaster Stephen**—Single, large deep crimson.
- Gloriosa**—Good single bright red.
- Grand Duchess de Baden**—Double orange, scarlet, fine form.
- Helene Thelemann**—Double deep rose, superb.
- Herman Seidel**—Bright rose with poppy red shade, double.
- Juliana**—Single, bright orange scarlet.
- Le Progress**—Semi-double crimson, spotted with black.
- Madam Vander Cruyssen**—Clear rose, semi-double; a very pleasing flower of good form.
- Magnifica**—Large single white, tinted lilac.
- Model**—Very dark rich crimson, very fine single.
- Mortii**—Single white, dwarf, compact grower.
- Nicholas Schaurer**—Brilliant rose, large single flower, crisped edge.
- Pauline Mardner**—Beautiful light rose fine flowers, semi-double.
- Perle de Gendebrugge**—Fine double white free-flowering variety; dwarf.
- Phoebus**—Double vermilion orange, fine large flowers.
- Pluto**—Single blood-red, shading to deep crimson, one of the best.
- President**—Single rich deep rose.
- Princess Charlotte**—Beautiful rose, large single flowers.
- Professor Walters**—Single salmon rose, edged white.

C. A. NOBELIUS & SONS PTY. LTD.

ORNAMENTAL TREES AND SHRUBS (CONTINUED)

Roi de Hollande—Single deep scarlet, fine form, and very free, one of the best.

Salmon King—Double salmon colour.

Sigismund Kucker—Single rosy pink, edged with white.

Souvenir de Monsieur Low—Semi-double flowers of dark rosy purple.

Souvenir de Prince Albert—Salmon rose with broad margin of pure white, single; very beautiful; late.

Splendens—Beautiful single, rosy salmon, fine free flowering variety.

Talisman—Semi-double, salmon pink edged with white.

Veronica—Large double deep rose, fine form.

Vicolour.

Zampa—Double rosy purple, very distinct.

AZALEA JAPONICA

5/- to 7/6 each, according to size.

Deciduous, similar to the Ghent Azalea, producing a mass of flowers in colours unlike any other Azalea, before the leaves appear, also very fine autumn foliage.

Orange, salmon and yellow shades.

AZALEA INDICA (Japanese varieties)

2/- to 3/6 each, according to size.

Beni-giri—Rosy cerise.

Hinode-giri—Dwarf compact shrub with small flowers produced in great abundance, clear crimson cerise, finest variety we know of for massing.

Ledifolium Leucanthum—Single pure white, flowers not large.

Obtusum Yaye-giri—Deep orange, salmon.

Oriuki Shibori—Large single white, very free flowering.

CAMELLIAS

3/6 to 5/- each.

Angelo Cochii—White, striped with rose.

Aspasia—White, with spots of pink.

Bonomiana—Large pure white; one of the best.

Bronchia—Small white, but of very good form.

Countess of Derby—White with crimson spots.

Countess of Ellesmere—White, striped with pink.

Edward Billing—Double rose pink; very fine.

GEMBROOK NURSERIES, EMERALD

ORNAMENTAL TREES AND SHRUBS (CONTINUED)

- Fanny Soucholu**—Fine form, double; almost white.
Great Eastern—Dark scarlet; fine form; recommended.
Isabella—Pure white late flowering; good form.
Lady Bowen—White, pink stripes.
Lady Parker—Fine rose; cupped; perfect shaped.
Madame Peppim.
Mariana—Pink and white; hardy and a good doer.
Mathoniana—Deep crimson; very large; one of the best.
Mrs. H. B. Sheather—Rosy salmon; beautiful form.
Optimus.
Red Pressii (*syn. Wrightii*).
Red Waratah—Red; very double centre, very fine.
Self Pink.
Single Red—Bright red, with yellow stamens.
Single Rose.
Single White—Pure white, with yellow stamens.
Triumphans—Red, very prolific bloomer.
White Waratah—White, showing yellow centre.
Wrightii—Rich crimson, beautifully cupped.

CAMELLIA SASANQUA

The Japanese winter flowering camellia, small foliage and single flowers, with yellow stamens. Very effective. 5/- each.

Colours, white, pink and carmine.

CONIFERS

- Abies Douglassi** (*Pseudotsuga Douglassi*)—The well known Silver Fir or Oregon Pine of America. A quick growing species, makes a very fine tree in the hills, grows to 80 to 100 feet. Strong trees up to 4 feet high can be supplied 2/6 to 5/- each.
Abies Excelsa (Norway Spruce)—Beautiful tree of symmetrical but rather slow growth, very hardy and attains 100 feet in height. Small plants only available. 1/6 each.
Abies Menziesii (*Sitchensis*)—Menzies Spruce. Very hardy and one of the finest of the silver firs. 60 feet. 2/6 each.
Abies Morinda (*syn. Smithiana*)—A fine compact species with fine leaves and pendulous branches. 30 feet. 2/6 each.
Abies Nordmanniana—Will thrive in almost any soil. A beautiful species with deep glossy green leaves; makes a very fine specimen tree. 30 feet. 2/6 to 3/6 each.
Araucaria Imbricata (Chili Pine)—Known as the Monkey Puzzle. A slow growing tree, makes a very fine specimen in the cool districts. 25 feet. 3/6 each.

C. A. NOBELIUS & SONS PTY. LTD.

ORNAMENTAL TREES AND SHRUBS (CONTINUED)

- Biota Orientalis** (Chinese Arbor-vitæ)—A very hardy conifer with stiff upright foliage, fairly dwarf in habit. 12-16 feet. 2/- each.
- Biota Orientalis Aurea**—A golden variety of the above, much dwarfer in habit, conical in shape, about 5 feet high when fully grown. 2/6 each.
- Cedrus Atlantica** (Silver Cedar)—Large tree of broad pyramidal shape, recommended for parks and large gardens. 100 feet. 2/6 each.
- Cedrus Atlantica Glauca**—A beautiful variety of the above with glaucous silvery leaves, and a much smaller grower. Highly recommended for a specimen tree. These plants are grafted from the true variety and are guaranteed true to type. 20 to 30 feet. 3/6 each.
- Cedrus Deodara** (Indian Cedar)—A very hardy tree of graceful appearance, and very popular with all tree lovers. Requires plenty of room to do well. 80 to 100 feet. 2/6 each.
- Cedrus Deodara Aurea**—A golden variety of the Indian Cedar, much smaller than its parent, a beautiful tree. Grafted plants guaranteed true. 40 to 50 feet. 3/6 each.
- Cryptomeria Japonica** (Japanese Cedar)—A Japanese conifer of large size, used much in that country for timber. Of much stiffer appearance than elegans or plumosa varieties, which are more popular. 50 to 60 feet. 2/- each.
- Cryptomeria Japonica Elegans**—A beautiful tree with soft downy foliage which turns a brownish red in winter. A very hardy and compact grower for the cool districts. We can supply fine plants 1 to 4 feet high. 30 to 40 feet. 2/6 to 7/6 each.
- Cryptomeria Japonica Plumosa**—Very similar to Elegans, but yet quite distinct; does not turn to deep red in colour in the winter and the young foliage is more pendulous. All the Cryptomerias thrive best in moist, deep soil. 20 feet. Plants from 1 to 4 feet high. 2/6 to 7/6 each.
- Cupressus Lambertiana Horizontalis**—Best tree for large hedges and breakwinds, and a rapid grower. True horizontal variety. 40 to 50 feet. 36/- per doz.
- Cupressus Lambertiana Horizontalis Aurea**—A golden variety of the Horizontal cypress, makes a beautiful specimen tree, also suitable for avenues or hedges. 30 to 40 feet. 36/- per doz.
- .. **Lawsoniana** (*Chamaecyparis Lawsoniana*)—A beautiful conifer of graceful pyramidal shape, broad at the base and growing right to the ground. 2/- each.
- .. **Lawsoniana Allumi**—3/6 each.
- .. **Lawsoniana Argentea Compacta**—A very dwarf growing variety with beautiful silvery green foliage. 3/6 each.

GEMBROOK NURSERIES, EMERALD

ORNAMENTAL TREES AND SHRUBS (CONTINUED)

- Cupressus Lawsoniana Aurea**—A very fine golden variety. 3/6 each.
 each.
- „ **Lawsoniana Aurea Nova**—3/6 each.
- „ **Lawsoniana Erecta Aurea**—3/6 each.
- „ **Lawsoniana Fraseri**—3/6 each.
- „ **Lawsoniana Pyramidalis Alba**—3/6 each.
- „ **Lawsoniana Pyramidalis Keesen**—3/6 each.
- „ **Lawsoniana Rosenthalii**—3/6 each.
- „ **Lawsoniana Triomphe de Boskoop**—Nice blue foliage, darker than *stricta* *coerulea*. 3/6 each.
- „ **Lawsoniana Versicolor**—A curious yellow variegated plant. 3/6 each.
- „ **Macrocarpa** (Monterey Cypress)—Larger and more upright grower than *Horizontalis*, not so dependable for hedges, but makes a very fine shelter tree of large size. 60 feet. 1/6 each.
- „ **Obtusa**—See *Retinospora*.
- „ **Sempervirens Stricta**—Italian or Roman Cypress. A tall columnar tree, grows to about 40 feet. Good plants 3 feet high. 3/6 each.
- „ **Torulosa**—Fine tree for hedges, also suitable for breakwinds. Does well near the coast. 40 feet. 30/- per doz.
- Juniperus Prostrata**—A prostrate form of Juniper, suitable for planting on banks and rockeries. 2/6 each.
- Larix Decidua** (European Larch)—A beautiful graceful deciduous conifer with soft light-green foliage. Requires a cool, moist situation; does well in the hills. 60 feet. 2/6 each.
- Pinus Canariensis** (Canary Islands Pine)—Very ornamental, with blue-green foliage, a fast grower; does well in this climate. 40 to 50 feet. 2/- each.
- Pinus Insignis** (*syn. Radiata*)—The well known pine used extensively for breakwind, shelter belts, timber, etc. Strong plants in pots. 50 to 60 feet. 12/- per doz.
- Pinus Pinea** (Stone Pine)—A hardy pine suitable for the coast, and exposed positions. Makes a handsome tree with rounded or umbrella shaped head. 30 to 40 feet. 2/- each.
- Retinosporas**—These are dwarf conifers of varying size and habit, very ornamental, and can be highly recommended for specimens, tubs, walls, etc., but require a cool position with a fair amount of moisture.
- „ **Ericoides**—Heath like *Retinospora*, of compact, rounded shape, green in summer, but turns brown red in winter. 8 feet. 2/6 to 3/6 each.
- „ **Filifera**—Green weeping thread-like foliage, 8 feet. 2/6 each.

C. A. NOBELIUS & SONS PTY. LTD.

ORNAMENTAL TREES AND SHRUBS (CONTINUED)

- Retinosporas Leptoclada**—One of the best of this group. A beautiful slender branched variety of upright growth and blue-green colour, particularly suitable for tubs. 3/6 each.
- „ **Obtusa Nana Alba**—An attractive variety of dwarf compact habit, foliage green with white spots; suitable for planting in tubs, walls, or rockeries. 3 feet. 3/6 each.
- „ **Obtusa Nana Aurea**—A most beautiful golden form of the above, dwarfer in habit, should not be planted where the heat would affect it, as the foliage burns. 2 feet. 3/6 each.
- „ **Plumosa**—A very hardy variety, with brown-green foliage. 8 to 10 feet. 2/6 each.
- „ **Plumosa Alba Picta**—A variegated form of the above, makes a fine specimen for lawns, etc.; foliage green and white. 6 feet. 2/6 each.
- „ **Plumosa Aurea**—Lovely golden foliage, very effective. 6 feet. 2/6 each.
- „ **Squarrosa**—A strong and hardy variety with blue-green downy foliage, very compact. 10 feet. This variety can be clipped to any shape. 2/6 each.
- Sequoia Sempervirens** (Californian Redwood)—A noble growing tree for the cool districts, grows to an enormous size. 200 feet. 2/6 to 3/6 each.
- Taxodium Distichum** (Deciduous Cypress)—A large growing and beautiful tree, suitable for lakeside or moist positions. A good timber tree. 50 to 60 feet. 2/6 each.
- Thuya Gigantea** (*syn. Lobbi*)—The giant arbor-vitæ, a good fast growing variety. 2/6 to 3/6 each.
- Thuyopsis Borealis**—A handsome small and slow growing conifer. 2/6 each.
- Thuyopsis Dolabrata**—A slow growing conifer, very distinct, and adapted for small gardens. 30 feet. 2/6 each.

EUCALYPTUS

- Botryoides** (Bastard Mahogany)—50/- per 100.
- Calophylla Rosea**—Pink flowering gum. 1/6 each; 16/- per doz.
- Citriodora** (Lemon-scented Gum)—1/6 each; 15/- per doz.
- Corynocalyx** (Sugar Gum)—50/- per 100.
- Crucis**—A pretty flowering Eucalyptus with silver leaves. 2/- each: 20/- per doz.
- Ficifolia** (Scarlet Flowering Gum)—1/6 each; 15/- per doz.
- Globulus** (Tasmanian Blue Gum)—1/- each; 9/- per doz.
- Leucoxydon Rosea**—Pink flowering. 1/6 each; 15/- per doz.

GEMBROOK NURSERIES, EMERALD

ORNAMENTAL TREES AND SHRUBS (CONTINUED)

- Macrocarpa**—Silvery white foliage, large rich crimson flowers. 2/- each; 20/- per doz.
Pachyphylla—1/6 each.
Preissiana—Large lemon-coloured flowers. 2/- each; 20/- per doz.
Pyrifomis—Flowers rich crimson and yellow. 2/- each.
Risdoni—For silvery foliage this is the handsomest of all. 1/6 each.
Saligna (Willow Gum)—Flowers white. 1/6 each.
Stricklandii—Golden-yellow flowers, 2/- each; 20/- per doz.
Tetragona—Silver foliage, cream-coloured flowers. 2/- each.
Tetraptera—Flowers red and white. 2/- each.

HYDRANGEAS

2/- to 2/6 each.

- Acuminata**—Beautiful deep-blue flowers.
Agnue Paralli—A new variety, good blue.
Ajisai—Large trusses of small rounded peculiar shaped flowers of a good deep blue colour.
Childs' Red Stem—Violet-blue flowers.
Hortensis—Enormous trusses of blue flowers.
Hortensis Domotoi—A splendid new variety. Flowers very large and double, keeping on the plant for a long time. A good vigorous grower which will be very popular when known. With us this variety is a very good pale blue, but in other districts would probably be white. 5/- each.
Hortensis Variegata—Flowers pale blue, handsome silvery variegated leaves.
Lady Bambert—A new variety, very fine, clear white.
Mdm. E. Moulliere—Very large beautifully fringed white flowers.
Otaska Compacta—Fine large heads of compact flowers, good autumn tints.
Paniculata Grandiflora—Flowers white, in pyramidal trusses, sometimes a foot long.
Poquist—One of the best blues.
Ronsard—Tall growing, very fine white.
Stellata Fimbriata—Deep pink, fringed.

LILACS (*Syringa*)

2/6 each.

- Cavour**—Single, very large flowers of dark slate blue, quite distinct.
Charles Sargent—Double, violaceous blue-mauve.
Condorcet—Double, ashed blue.
Dame Blanche—Double, white.
Docteur Masters—Double lilaceous.

C. A. NOBELIUS & SONS PTY. LTD.

ORNAMENTAL TREES AND SHRUBS (CONTINUED)

- Edmond Boissier**—Single, dark bluish-violet.
Fertile du Poitou—Single, dark purple.
Georges Bellair—Double, light vinous red, buds darker.
Jacques Callot—Violaceous large red.
Lamartine—Large panicles of light single flowers, mauve rose, very early and floriferous.
Leon Gambetta—Double lilac rose.
Madame Casimir Perier—Double creamy white.
Madame Lemoine—Double, pure white.
Marie Legraye—Single white, extremely floriferous.
Michel Buchner—Double rose lilac.
Mirabeau—Similar to Lamartine, a shade deeper colour.
Miss Ellen Willmott—Double, snow white.
Negro—Dark violaceous purple.
Othello—Purplish red.
President Grevy—Double, vinous violet.
Reaumur—Dark carmine.
Souvenir de Louis Spath—Blackish red.
Toussa.
Waldeck Rousseau—Double, imbricated, light rosy lilac, centre white.
William Robinson—Double, violaceous malva.
-

A Few Hints to Amateur Planters.

THE land should be well prepared by ploughing and harrowing to a depth of not less than nine inches, in dry land twelve inches, and properly drained if too wet or any soakage from higher land occurs.

When trees arrive they should at once be unpacked and watered if at all dry. If not ready to plant at once, dig a trench sufficiently deep to cover the roots. The bundles of trees (usually tied up in tens) can be put into the trench and roots well covered with fine soil; in this state they will keep fresh for weeks.

In planting, the roots of the trees should be trimmed with a sharp knife, and all bruised parts cut off. The holes should be dug deep and wide enough to take the roots without any doubling up or cramping. The trees, bushes, etc., should be planted a shade deeper than they have been in the ground previously. This can easily be seen by the different colour of the bark, and will leave the tree in the same position as in the nursery when the ground has settled down.

Distance for planting is usually twenty feet apart; less will do for Plums and Cherries and for small private gardens. Gooseberries and Currants six to eight feet apart; Raspberries in rows six feet apart, one foot in the row; Strawberry plants fifteen to eighteen inches, thirty inches between the rows.

When planted, Almonds, Apples, Pears, Quinces, Plums, Peaches, Nectarines, Apricots, Cherries, Persimmons, Mulberries, etc., should be cut back to six or eight inches from the stem; maiden trees or rods cut back to the height the stem is required, usually twelve to fifteen inches. Currants, Gooseberries, and Vines should be cut down to two or three buds. Citrus trees (Oranges, Lemons, etc.) should be cut back same as other fruit trees, and if the leaves shrivel they should be cut off; they should also be staked and tied so as not to move about with the wind. Walnuts and other nuts are not pruned.

C. A. NOBELIUS,

Gembrook Nurseries, Emerald.

Our Customers Say :.....

Mont Albert Rd.,
Messrs. C. A. Nobelius & Sons Pty. Ltd., Canterbury,
Emerald. 30th July, 1926.

Dear Sirs,

I would like to take this opportunity of letting you know how pleased I am with the whole of the Trees and Shrubs received from you. They are satisfactory in every way and I have already recommended your Nursery to quite a number of friends who have admired the Trees planted in my garden.

Yours faithfully, W. D. G.

Melbourne,
Messrs. C. A. Nobelius & Sons Pty. Ltd., 23rd June.
Emerald.

Dear Sirs,

I have pleasure to enclose my cheque for the Fruit Trees you forwarded to Mr. McC., Woodend. By a mere coincidence I happened to be there when they arrived, and Mr. McC. and myself were both delighted with their healthy appearance and the care exhibited in the packing, labelling, etc.

Yours faithfully, W. F. G.

* * *

Norton's Summit,
Mr. Nobelius, South Australia,
Dear Sir, 26th June.

Received Trees last week in splendid order and condition; I am well pleased with them. Also congratulate you on your good packing and care in digging them up. Had some once before from Victoria and they were broken about terribly. Am enclosing postal and bank notes for same. Thanking you.

Yours faithfully, L. H. M.

* * *

School of Mines,
Messrs. C. A. Nobelius & Sons, Ballarat,
Gembrook Nurseries, 14th June, 1928.
Emerald.

Dear Sirs,

Please accept my best thanks for the quality and vigor of stocks forwarded. I have been interested in handling small parcels of trees, etc. (at occasional periods) during past 30 years, and have seldom had as good, and never better, trees.

Yours faithfully, J. B. R.

* * *

"Nyora,"
C. A. Nobelius & Sons Pty. Ltd., Wingello, N.S.W.
Gembrook Nurseries, Emerald, Vic. 9th July, 1927.

Dear Sirs,

I wish to express my thanks for the nature and condition of Fruit Trees recently ordered by me.

The packing of Trees was all that could be desired, and the quality of Trees exceeded my expectation. Several of the local orchardists have already commented most favourably on my consignment, and I feel sure orders will be received by your firm from this centre. I deeply regret you being out of the Pear Trees I ordered; however, better luck next time.

The nature and condition of your Fruit Trees will be their best recommendation. Wishing you every success.

Yours faithfully, J. J. W.
